Spiritual Writers Of The Middle Ages:

Spiritual Writers of the Middle Ages Gerard Sitwell, 1961 From the eleventh to the sixteenth centuries essentially the great age of monasticism much thought was given to developing a ground plan by which the monk or friar could reach contemplation and mystical union with God Basically the writers of the age saw a fourfold division of this ground plan reading meditation prayer and contemplation While the basic ideas of spirituality were generally accepted by all writers there were divergent teachings The author here traces the main trends of these varied teachings from Benedictine spirituality of the eleventh century through the ideas of the new orders the Cistercians the Franciscans and the Dominicans down to the fifteenth century writings of Thomas Kempis whose Imitation of Christ is still one of the best known and most loved spiritual guides The author also deals at length with the writings of St Bernard of Clairvaux the major spiritual theologian of the Middle Ages *Documents concernant le film "Si les femmes portaient culotte"*, 1941 Spiritual writers of the Middle Ages the Twentieth Century Encyclopedia of Catholicism Vol.40, 1961 **Christian Spirituality: In the middle ages, translated by S. Mysticism and Spirituality in Medieval England William F. Pollard, Robert Boenig, 1997 The late fourteenth and early fifteenth centuries in England were a golden age of mysticism the major figures could draw on and allude to a host of treatises as the *Cloud* author acknowledges when he explains how the works of St Denis validate all he writes about Without Denis without the theologians of the eleventh and twelfth centuries without the anchoritic writings of the thirteenth century Richard Rolle Julian of Norwich Walter Hilton Margery Kempe could not have written as they did Likewise those who followed them the Wycliffites the Brigittines the writers of religious lyrics responded to those who had gone before The articles presented here identify major themes and the web of influence that link them new but solid interpretations are offered of the key figures and their backgrounds and the emphasis is on the rich variety of mysticism these authors and texts embody
