Carthusian Spirituality Dennis D. Martin, 1997 In the fourteenth fifteenth and sixteenth centuries the Carthusians filled the role played in the tenth and eleventh centuries by the Cluniac network in the Twelfth century by the Cistercians and in the thirteenth century by the Franciscans and Dominicans Western Christendom's most outstanding professional intercessors before God's throne Founded in the late eleventh century a few years before the Cistercians the Carthusians grew very slowly during their first two centuries but were highly respected from the beginning *The Oxford Handbook of Christian Monasticism* Bernice M. Kaczynski, Thomas Sullivan, 2020 The Oxford Handbook of Christian Monasticism addresses for the first time in one volume multiple strands of Christian monastic practice Forty four essays consider historical and thematic aspects of the Catholic Eastern Orthodox Oriental Orthodox Protestant and Anglican traditions as well as contemporary new monasticism Meditation as Spiritual Therapy Matthew McWhorter, Matthew R. McWhorter, 2024 Christian persons today might seek spiritual development and ponder the benefit of mindfulness exercises but also maintain concerns if they perceive such exercises to originate from other religious traditions Such persons may not be aware of a long tradition of meditation practice in Christianity that promotes personal growth This spiritual tradition receives a careful formulation by Christian monastic authors in the twelfth century One such teaching on meditation is found in the treatise *De consideratione* written by St Bernard of Clairvaux d 1153 to Pope Eugene III d 1153 In textual passages where St Bernard exhibits a clear concern for the mental health of the Pope due to numerous ongoing ecclesial political and military problems St Bernard reminds Eugene III of his original monastic vocation and the meditation exercises associated with that vocation The advice that St Bernard gives to Eugene III can be received today in a way that provides a structure for Christian meditation practice which is relevant for personal development spiritual direction and civil psychotherapy that integrates a client's spirituality into the course of treatment St Bernard thus might be interpreted as a teacher of a kind of Christian mindfulness that can benefit both a person's mental health as well as a person's relationship with God Meditation as Spiritual Therapy examines the historical context of Bernard's work his purpose for writing it as well as the numerous Christian sources he drew upon to

formulate his teaching Bernard's teaching on the course of meditation itself is explored in depth and in dialogue with his other treatises letters and sermons Lastly a contemporary summary of Bernard's teaching is provided with reflections concerning the relationship of this teaching to contemporary spiritual direction and spiritually integrated civil psychotherapy

height of the Lyonnais Renaissance as illustrated by one of the country's most prominent writers Maurice Scève's *Le Labyrinthe* is the first French sequence of poems devoted to a single woman in the manner of Petrarch's *Rime*. It is also the first Renaissance work to use emblems in a sustained work on love. At their core, most amatory lyrics involve a triple relation among lover, beloved, and the meaning of love. Whether the poet-lover is a man or woman, poetic discourse generally takes the form of an interior monologue frequently intermingled with direct and indirect address to the beloved. Though the dominant quality of this lyric is personal introspection, Michael Giordano finds *Le Labyrinthe* to be consistent with traditions of Christian meditation. He argues that the amatory lyric served as a vehicle for contests of value and paradigm change not only because it was conditioned both by sacred and profane sources but also because it occurred at a time of religious upheaval and scientific revolution.

Christian Spirituality in the Catholic Tradition Jordan Aumann, 1985. This history not only serves to acquaint us with the origins and development of Christian spirituality but equally importantly, in the author's view, projects into our contemporary world the lives and teachings of men and women who have reached a high degree of sanctity through the ages. His study is Catholic in both senses of the word. He has concentrated his attention on the history of spirituality in the Roman Catholic Church and he has taken a comprehensive view of the full range of forms of that Catholic tradition, including so that we can learn from the mistakes of the past, the heterodox tendencies and movements that have arisen from time to time.
