Collet**

Spiritual Dimensions In Teaching High School Religion:

Spiritual Dimensions in Teaching High School Religion Mary Michael Doherty, 1976 **International Handbook of the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it as today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

Religion & Spirituality in the Public School Curriculum Ronald D. Anderson, 2004 The heart of a truly complete education lies in individual students integration of understandings from the many dimensions of their lives religious academic and personal The general failing of formal schooling to achieve such an education is linked to the ongoing struggle over the role of religion particularly in public education where the teaching of evolution discussions of sexual practice and various literary interpretations pose a dilemma for schools in our diverse and pluralistic society with its constitutional constraints With careful attention to both the full sweep of the purposes of education and alternative theories of curriculum this book charts a path for public schools in resolving this dilemma *Spiritual Experiences in Early Childhood Education* Jennifer Mata, 2014-06-13 Spirituality is frequently avoided in the public school classroom in an attempt to prevent controversy However by ignoring preventing or discounting spirituality educators can also inhibit children s spiritual development Based on qualitative research and interactions with both children and adults Jennifer Mata argues that educators should be responsible for addressing children s spirituality in the classroom and for re introducing these topics into early childhood education By surveying the existing literature on spirituality Mata offers a working definition of spirituality as an essential characteristic of humanness which helps connect individuals to themselves others and to the transcendent The book portrays stories and descriptions of four kindergarten children in their classroom setting exploring their different modes of expressing and experiencing spirituality Finally *Spiritual Experiences in Early Childhood Education* offers a review of pedagogical strategies to nurture spirituality for both teachers to implement in the classroom and teacher educators to facilitate in teacher preparation programs **How Teachers in Europe Teach Religion** Hans-Georg

Ziebertz,Ulrich Riegel,2009 In 2007 around 3500 teachers in 16 European countries participated in a cross cultural study of existing teaching procedures in religion and theology This text shows the results which present different approaches strategies and ways of thinking when it comes to teaching religion in a multicultural context *The Oxford Handbook of Children and the Law* ,2020-02-07 The Oxford Handbook of Children and the Law presents cutting edge scholarship on a broad range of topics covering the life course of humans from before birth to adulthood by leading scholars in law medicine social work sociology education and philosophy and by practitioners in law and medicine An international collection of authors presents and analyzes the law and science pertaining to reproduction prenatal life including fetal exposure to toxic substances and abortion parentage including biology based rights background checks on birth parents adoption the status of gamete donors and surrogacy infant development and vulnerability child maltreatment including corporal punishment and religious defences to abuse and neglect child protection policy and systems foster care child custody disputes between parents or between parents and other caregivers schooling including financing resegregation religious expression in public schools at risk students special education regulation of private schools and homeschooling delinquency minimum age laws and child advocacy Most chapters follow a format wherein they first describe the most debated or dynamic issues in each topical area then explain in depth the law and or science pertaining to the author s particular focus and finally offer arguments and recommendations as to law and policy in that area The normative component aims to advance discussions and debates in vital areas of contemporary child welfare law and policy The Handbook is an essential resource for scholars and professionals interested in the intersection of children and the law *The Bloomsbury Handbook of Religious Education in the Global South* Yonah Hisbon Matemba,Bruce A. Collet,2022-02-10 The Bloomsbury Handbook of Religious Education in the Global South presents new comparative perspectives on Religious Education RE across the Global South Including 23 chapters written by scholars from the Global North and South this is the first authoritative reference work on the subject The handbook is thematically organised into seven sections The first three sections deal with provision response to changes in contemporary society and decolonizing RE The next four sections explore young people and RE perspectives on teachers RE in higher education and finally challenges and opportunities for RE The term Global South is used here primarily to signify the deep economic divide with the Global North but the concept is also examined in historical geographical political social and cultural terms including the indelible influence of religion in all four broadly defined regions Exploring RE from local cross national as well as regional and sub regional perspectives the handbook examines RE from its diverse past present realities and envisioned future revealing not only tensions contestations injustices and inequalities of power but importantly how inclusive forms of RE can help solve these problems **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1978 *Spiritual Dimensions of Advanced Practice Nursing* Melanie Rogers,2021-10-15 This book recognises the challenges associated with the concept of spirituality An awareness of this concept is integral to the

provision of person centred holistic care However APNs ability to provide spiritual care is often impeded by time pressures and the prioritisation of clinical tasks Confusion about the meaning of spirituality and its relationship to religion compound the challenges involved in providing spiritual care leaving APNs feeling ill equipped to address this area of care Indeed many APNs view spirituality as synonymous with religion This book provides clarity with the assumption that spirituality is innate to all of our patients and is related to what gives them hope meaning and purpose Fundamentally it is about being human APNs ability to practice with kindness compassion and empathy will naturally resonate with spiritually competent practice It begins with an outline of the definitions of spirituality in addition to the concept of spiritually competent practice An emphasis on the importance of personal development follows Case studies from countries across the globe illustrate the benefit of integrating spirituality and provide evidence of the importance and relevance of integrating spirituality into practice These include discussion and presentations of the related concepts of availability and vulnerability which will give APNs more confidence and competence to integrate spirituality into practice This book is relevant for APNs students educators and researchers

Rekindling Embers of the Soul Miranda Lin, Thomas A. Lucey, 2023-11-01 This edited volume *Rekindling Embers of the Soul* An Examination of Spirituality Issues Relating to Teacher Education fills the gap in scholarship by providing information about an understudied aspect of teacher education research In an education environment that provides an increasing degree of standardization founded upon corporatized materialist values the concept of spirituality and its importance in shaping the diverse identities of students and teachers becomes neglected This volume offers ten chapters which relate the spirituality to teacher education with regard to theory and research instruction and content Both researchers and teachers will appreciate the insights that it offers
