Relating to God, Dan Merkur, 2013-11-21

In *Relating to God*, Clinical Psychoanalysis, Spirituality, and Theism, Dan Merkur conceptualizes religious discourse within psychoanalysis. He proposes that God be treated as a transference figure whose analysis leads to a reduction of the parental content that is projected onto God. Merkur notes that religious conversion experiences regularly involve theological intuitions that are either rational or, owing to morbid complications, have undergone displacement into irrational symbolism. Analysis renders the religiosity more wholesome. Traditionally, psychoanalytic thought has been dismissive of religion. Freud is on record, however, as having called psychoanalysis a neutral procedure. He argued that religion, with its dependency on a providential God who punishes disobedience, imagines spirituality on the model of human parents and fails to approach spirituality in an appropriately scientific manner. He wrote little of spiritual phenomena but mentioned both the rationality of the universe and the parapsychological occurrence of thought transference. Occasionally, later psychoanalysts used different language in order to contrast wholesome and morbid forms of religion. Erich Fromm distinguished authoritarian and humanistic religions, while D.W. Winnicott condemned fetishistic behavior while approving of playful illusions that require belief in. These formulations

constructed a middle position for clinicians neither categorically opposed to religion as classical psychoanalysis was nor do they embrace cultural relativity as spiritually oriented psychotherapists are currently advocating What sorts of spiritual practices does psychoanalysis find unobjectionable As examples of humanistic religion Fromm named Zen Buddhism Buddhist mindfulness meditation and the via negativa or way of negating that some Christian and Jewish mystics have followed Because the Bible based approaches are little known Merkur discusses their histories procedures and psychoanalytic understanding

Self-Awareness and Meditation Charles Attfield,2023-07-28 Charles Attfield has done the hard work of presenting Eastern Meditation wisdom in a form easily understood by the West in the tradition of his teacher and founder of Synchronicity Foundation Master Charles Cannon Jim Clarke Senior staff member at Synchronicity Foundation We are all on a journey a journey from illusion to truth Self Awareness and Meditation An Advanced Guide for Meditators looks at both the evolution of consciousness along this journey and meditation as an integral part of it A point comes when there is an awakening to the possibility that there is more than the consensus reality which we have been part of for eons We know that there is something more and so our search begins Eventually with meditation our focus moves within as we search for the Self our true nature which until now has been hidden in illusion waiting for our awakening and eventual joyful return Self Awareness and Meditation focuses on the return journey back to the Self True meditation is a state of awareness which comes naturally as we increasingly align with our soul We realise that we are not the doer and then comes a different perspective about allowing our false reality to fall away and we discover that consciousness not the ego has been running the show all the time
