hair and its cultural meanings have become increasingly important in the twenty first century an era in which most women have dyed their hair at least once and *Hair and Fashion* also looks closely at the role of the blonde brunette and redhead in popular culture The stimulating text is supported by glamorous and evocative images including ground breaking fashion shoots by top photographers as well as new specially commissioned photographs Haircuts and hairstyles as this book reveals are no mere simple incursions into hair taming and conformity but a living growing embodiment of cultural codes and meanings with the potential to turn someone into a walking work of art **The Cumulative Book Index** ,1999
