Spohrstring Qts 5 1 2:

String Quartets in Beethoven's Europe Nancy November, 2022-04-19 String Quartets in Beethoven's Europe is the first detailed study of string quartets in late eighteenth and early nineteenth century Europe. It brings together the work of nine scholars who explore little studied aspects of this multi-faceted genre. Together, this book's chapters deal with compositional responses to Beethoven's string quartets and the prestige of the genre, varied compositional practices in string quartet writing with a particular emphasis on texture and performance elements, and the reception of Beethoven's string quartets ca. 1800. They include discussions of quartets composed for the amateur and connoisseur markets in Beethoven's Europe, virtuosity, the French Violin School, and the *quatuor brillant*, the relationship between quartet composers and their audiences during Beethoven's era, and the cross-pollination of quartet styles in Europe's musical centers such as Vienna, Paris, and St. Petersburg.

Concerto No. 12 Louis Spohr, One of the leading composers of instrumental music of the early Romantic period. Louis Spohr was a violinist, composer, and conductor. In addition to symphonic works, string quartets, and other solo and chamber music, he composed operas, operettas, and songs. There has been a trend starting in the late 20th century to revive his instrumental works and songs.

Schubert's Beethoven Project, Schubert's String Quartets Anne Hyland, 2023-04-20 Franz Schubert's music has long been celebrated for its lyrical melodies, heavenly length, and daring harmonic language. In this new study of Schubert's complete string quartets, Anne Hyland challenges the influential but under-explored claim that Schubert could not successfully incorporate the lyric style into his sonatas and offers a novel perspective on lyric form that embraces historical musicology, philosophy, and music theory and analysis. Her exploration of the quartets reveals Schubert's development of a lyrically conceived teleology, bringing musical form, expression, and temporality together in the service of fresh intellectual engagement. Her formal analyses grant special focus to the quartets of 1810-16, isolating the questions they pose for existing music theory and employing these as a means of scrutinizing the relationship between the concepts of lyricism, development, closure, and teleology, thereby opening up space for these works to challenge some of the discourses that have historically beset them.

Opera in the Viennese Home from Mozart to Rossini Nancy November, 2024-01-18 Domestic musical arrangements of opera provide a unique window on the world of nineteenth-century amateur music-making. These arrangements flourished in especially rich variety in early nineteenth-century Vienna. This study reveals ways in which the Viennese culture of musical arrangements opened up opportunities, especially for women, for connoisseurship, education, and sociability in the home and extended the

meanings and reach of public concert life It takes a novel stance for musicology prioritising musical arrangements over original compositions and female amateurs perspectives over those of composers and asks what cultural musical and social functions did opera arrangements serve in Vienna c 1790 1830 Multivalent musical analyses explore ways Viennese arrangers tailored large scale operatic works to the demands and values of domestic consumers Documentary analysis using little studied evidence of private and semi private music making investigates the agency of musical amateurs and reinstates the central importance of women s roles **Annual List of New and Important Books Added to the Public Library of the City of Boston** Boston Public Library, 1898
