The Death And Resurrection Show:

Soulforce Joseph Arnold, 2024-08-19 Through the unique Soulforce Arts Approach you will be able to breath new life into your creative works and bring a newfound passion to your art Many artists musicians and creatives share a secret fear that their art doesn't really matter and that it isn't practical or useful enough to make a tangible contribution to a world in need This couldn't be further from the truth The purpose of art is to bring us more alive to connect us with something bigger than our individual selves to inspire heal and bring us together These are universal human needs whose fulfillment provides a necessary sense of meaning purpose and belonging and without which life becomes a dry dusty bone However in order to make art that fulfills this purpose you first must surmount the challenges inherent to creating art in an extractive consumer driven society This thought provoking book examines how Soulforce the transformative energy that comes from facing creative challenges from a place of wholeness aliveness and connection can breathe new life into your creative works and empower you to have a new experience of your art and its impact on you your community and the world Through his unique Soulforce Arts Approach Arnold empowers us to see art through the lens of deep humanity and interbeing and presents a curriculum to help us move from fear doubt and disconnection to a place where art becomes a tangible expression of love life and the divine in all of us A must read for fans of Julia Cameron and Alex Grey Soulforce is a primer for a new generation of artists and creatives who are ready to claim their true potential as creative forces for change Performing Dark Arts

Michael Mangan, 2007-08-01 Magic and conjuring inhabit the boundaries and the borderlands of performance The conjuror's act of demonstrating the apparently impossible the uncanny the marvellous or the grotesque challenges the spectator's sense of reality It brings him or her up against their own assumptions about how the world works at its most extreme it asks the spectator to re-evaluate his or her sense of the limits of the human Performing Dark Arts is an exploration of the paradox of the conjuror the actor who pretends to be a magician It aims to illuminate the history of conjuring by examining it in the context of performance studies and to throw light on aspects of performance studies by testing them against the art of conjuring The book examines not only the performances of individual magicians from Dedi to David Blaine but also the broader cultural contexts in which their performances were received and the meanings which they have attracted Idol Anxiety Josh Ellenbogen, Aaron Tugendhaft, 2011-07-18 This interdisciplinary collection of essays on idolatry including both historical and theoretical contributions shows that the concept of idolatry is helpful for all who study the ways that people interact with and conceive of the things around them **The Church. New ser., vol.1-8, Enlarged ser., vol.1**, 1883
