published by Princeton University Press since its founding in 1905 The Passion of Al-Hallaj Louis Massignon, 1994-07-25
Abridged from the four volume The Passion of al Hallaj one of the major works of Western orientalism this book explores the life and teaching of a famous 10th century Sufi mystic and martyr describing not only his experience but also the whole milieu of early Islamic civilization Halftone illustrations **The Middle Ages** Frank N. Magill, 2012-11-12 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography 105 Esoteric Traditions of the World — Book II: Forbidden Paths and Dangerous Teachings of the Hidden Orders: Cathars, Yezidis, Sethian Gnostics, Aghori, Left-Hand Tantra, Taoist Thunder Magic, Umbanda, Vodou, Qalandari Sufis, Mazatec Mushroom Path Laing Z. Matthews, 2025-09-20 Not all sacred knowledge is safe Some teachings have been silenced outlawed or forced into disguise not because they are false but because they overturn the structures of control Dangerous Teachings gathers fifteen lineages whose survival has depended on secrecy exile and the courage of those willing to carry wisdom that could not be spoken aloud Across continents and centuries these traditions have been branded as heresy magic or madness Yet within them lie precise spiritual technologies ways of seeing healing and awakening that confront the deepest fears of empire orthodoxy and conformity This is not sensationalism It is the reality of what happens when the sacred refuses to bow to power In these pages you will meet visionaries ascetics and mystics who kept the thread alive under threat of prison exile or death Native American Church peyote roadmen keeping the night fire through prohibition Romani dream readers decoding fate under centuries of persecution Siberian dreamwalkers retrieving lost souls when the state outlawed shamanism Dagara diviners in West Africa speaking with elements and ancestors against the tide of colonial erasure Kalachakra adepts preserving the Wheel of Time tantra through the destruction of Tibet Forest Theravada monks disappearing into wilderness to escape religious bureaucracy Essene breath mystics whose desert rites survived in fragments Golden Dawn adepts using ritual as a science of transformation not spectacle Assyrian Christian mystics guarding the Aramaic breath of Christ through genocide Each chapter follows the same initiatory pattern the core teaching of the tradition the spiritual condition it addresses its inner technology of practice its symbol or image and the key danger it faces whether distortion commodification or outright destruction Every section closes with a living practice the reader can try and an image or parable to seal the teaching in memory Dangerous Teachings is not a handbook for dabblers It is a map for those who understand that real wisdom demands responsibility and sometimes risk This is not the marketplace version of spirituality stripped of its teeth It is the unsoftened unlicensed transmission of currents that have survived precisely because

they refused to be made safe Volume II continues the work begun in Guardians of the First Flame shifting from primordial traditions to those forced underground by direct suppression Together the seven volumes of Esoteric Traditions of the World form an ark of memory rescuing not just facts but the living essence of ways of knowing that might otherwise vanish If you read this book you step into that ark You take on a share of the responsibility to remember And perhaps if the time comes to pass the fire on

Sufism and Zen in the West Saeko Yazaki, Michael Conway, 2025-02-20 Historically and culturally Sufism and Zen may not seem to have anything in common However in the West their spiritual messages are often perceived as strikingly similar In this book scholars analyse the ways in which Sufism and Zen were introduced to and developed in the West The collection shows that the popularity of these religions arose not because of the substantive shared elements within the two traditions but because their promoters in the West employed similar strategies to respond to the interests of a modern Western audience The first book to make a close comparison of Sufism and Zen this study is an important contribution to understanding Western religious life and processes of easternisation It sheds new light on how Sufism and Zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities
