Ollivant, 2002 Drawing on the writings of Jacques Maritain and by extension those of Thomas Aquinas the essays in this volume examine the effects of theories of knowledge on individuals culture and entire schools of philosophical thought The contributors challenge contemporary epistemologies which are largely based on writings of Descartes Locke and Kant They critique these theories internally and demonstrate their incompatibility with other goods such as liberty human dignity and access to the transcendent In stark contrast to modernity's dubious and fragmented opinions and belief systems Maritain in works like *The Degrees of Knowledge* and *Creative Intuition in Art and Poetry* proposed a theory of knowledge that permits real if limited knowledge of substances wholes Some contributors use these works as a springboard from which to examine aspects or applications of knowledge that Maritain left unexplored Others challenge or question aspects of Maritain's analysis seeking to improve upon his work Still others compare Maritain with other neo Thomistic philosophers most notably Etienne Gilson Alasdair MacIntyre and Pope John Paul II Maritain's works on human knowledge and the implicit critique of modernity contained within provide an alternative for those seeking to engage the various deficiencies of the culture of death These essays demonstrate the continuing relevance and timeliness of Maritain's thought Douglas A Ollivant is assistant professor of politics at the United States Military Academy Contributors George Anastaplo James Arraj Joseph M de Torre Robert Delfino Raymond Dennehy John M Dunaway Robert Fallon Desmond Fitzgerald William J Fossati W Matthews Grant Catherine Green James G Hanink Gregory J Kerr John F X Knasas John F Morris Ralph Nelson Douglas A Ollivant Matthew S Pugh Steven J Schloeder Christopher H Toner John G Trapani Jr Henk E S Woldring and Thomas F Woods This is a valuable collection of articles on an important individual who is still influencing contemporary political thought Lucien J Richard OMI Catholic Library World

The Christian Philosophy of Jacques Maritain Jason L. A. West, 2025-02-28 A study of the Christian philosophy of Jacques Maritain 1882-1973 an influential creative and prolific writer He was widely recognized as one of the most prominent Catholic intellectuals during his own lifetime and was widely seen as a spokesman for the Thomistic revival This study aims to present Maritain's thought as a dynamic and coherent philosophy in its own right This is the only book in English to present Maritain's philosophy on the full range of topics upon which he wrote It focusses on Maritain as a twentieth century philosopher rather than an interpreter of Aquinas Accordingly this book presents Maritain's philosophy in its own context Finally this work is also attentive to the religious context of Maritain's philosophy and highlights his overlooked contributions to theology and other areas of philosophy that are informed by his theological commitments e.g. mysticism ecclesiology education and philosophy of history Accordingly *The Christian Philosophy of Jacques Maritain* aims at providing the reader with a comprehensive presentation of Maritain's thought and a clear vision of his philosophy as a whole *Being in the World* Mario D'Souza, C.S.B., Jonathan R. Seiling, 2014-10-15 The work of the lay Catholic philosopher Jacques Maritain 1882-1973 continues to provoke and inspire readers to engage in a Thomistic approach to many of the questions facing the world today Maritain's wide ranging thought touched on many fields including aesthetics anthropology educational theory moral philosophy and ethics as well as Thomism and its relationship to other philosophical stances In *Being in the World* A Quotable Maritain Reader Mario O D Souza C S B has selected seven hundred and fifty of the most salient quotations found in the English translations of fifty four works by Jacques Maritain Organized into forty thematic chapters ordered alphabetically the book serves as an overview of the areas that Maritain's writings addressed By referring to entries in *Being in the World* readers can quickly locate key passages in Maritain's writing on a given topic and then turn elsewhere to the full texts for more in depth study Complete with a detailed index of key terms the Reader will be an essential reference tool for the study of Maritain in English *On the Origin of Consciousness* Scott D. G. Ventureyra, 2018-11-29 Have you ever thought about how self consciousness self awareness originated in the universe Understanding consciousness is one of the toughest nuts to crack In recent years scientists and philosophers have attempted to provide an answer to this mystery The reason for this is simply because it cannot be confined to solely a materialistic interpretation of the world Some scientific materialists have suggested that consciousness is merely an illusion in order to insulate their worldviews Yet consciousness is the most fundamental thing we know even more so than the external world since we require it to perceive or think about anything Without it reasoning would be impossible Dr Scott Ventureyra in this ground breaking book explores the idea of the Christian God and Creation in order to tackle this most difficult question He demonstrates that theology has something significant to

offer in reflection of how consciousness originated in the universe He also makes a modest claim that the Christian conception of God and Creation provide a plausible account for the origin of self consciousness He integrates philosophy theology and science in an innovative way to embark on this exploration *Encyclopedia of Modern French Thought*
Christopher John Murray, 2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more
