The Deliberate Dumbing Down Of America A Chronological Paper Trail A Chronological Paper Trail:

The Deliberate Dumbing Down of America Charlotte Thomson Iserbyt, 1999 In this book you will discover how good teachers across America have been forced to use controversial non academic methodology in their classrooms how school choice is being used to further dangerous reform goals and how home schooling and private education are especially vulnerable how workforce training school to work is an essential part of an overall plan for a global economy and how this plan will shortcircuit your child s future career plans and opportunities and how the international national regional state and local agendas for education reform are all interconnected and have been for decades The deliberate dumbing down of America is a chronological history of the past 100 years of education reform Each chapter takes a period of history and recounts the significant events including important geopolitical and societal contextual information Citations from government plans policy documents and key writings by leading reformers record the rise of the modern education reform movement Website <http://www.deliberatedumbingdown.com/book.htm>

Homosexuality F. Earle Fox, David W. Virtue, 2002-07 A look at the Biblical and scientific foundations of truth righteousness and love for dealing with homosexuality why America fell for a massive program of propaganda and the Godly strategy for rebuilding a sane understanding of human sexuality

War for Your Worldview Timothy Wade Corder, 2019-06-07 War for Your Worldview is based on the insights gained through twenty years of the author s intense investigative research Although a great deal has been written in recent years about globalism and the infamous New World Order much of it provides only scant evidence along with endless conjecture requiring readers to take giant leaps of faith This book however is different Corder disregards folklore and presents only the shocking incontrovertible evidence that proves the existence of the Deep State showcases the corruption that controls our news and entertainment media and exposes the elite cabal s insidious century long plot to undermine the founding principles of The United States of America Every citizen should be aware of the facts related to how our education system and our media sources have been hijacked to dumb down our population how the climate change narrative has been forced into our collective consciousness to guilt and shame us into bankruptcy and how our jobs and industries have been outsourced to destroy our economic well being Corder reviews the work of several credentialed whistle blowers who have blown the doors off of the covert operations intended to erode our values and ultimately topple our civilization He also demonstrates how social engineers have used our most noble qualities against us in their effort to bring about our destruction The key players are identified by name and concrete examples are provided of their undeniably sinister intentions and egregious acts against our Republic Learn how divisive rhetoric and emotionally charged propaganda are presenting direct threats to our civil liberties and how blatant attacks on patriotism Christianity and the US Constitution are erasing our national identity Discover how deadly drugs mass immigration and socialist policies are all being promoted to weaken us as a nation to destroy our people by bringing chaos and disorder to our lives and our communities You won t get these explosive

truths from the mainstream media or anywhere else There s a war being fought for our collective worldview The weaponry that s being employed against us is the manipulation of our minds The stakes are high The attacks are real The casualties are real Know how to fight back for freedom for liberty and for the way of life that we all cherish as Americans *Freefall of the American University* Jim Nelson Black,2012-12-03 It s happening in colleges all across the country Instead of being educational institutions designed to encourage the free discussion of ideas universities have become prisons of propaganda indoctrinating students with politically correct and often morally repugnant ideas about American life and culture This book exposes the liberal bias in today s universities providing hard evidence in clear and unimpeachable terms that shows how today s colleges are covertly and overtly proselytizing with leftist slants on sexuality politics and lifestyles By naming names and providing specific and credible insights from faculty members administrators professional observers and analysts who have witnessed and chronicled the intellectual and ethical collapse taking place within the academy this book offers a broad overview of the issues the history of the problems analysis from a broad range of academics and professionals and also observations of the university students themselves in their own words from schools all across the nation Invisible Eugenics Mark M. Rich, Wealthy eugenicist psychopaths have launched a covert eugenics program to reduce the population They are attacking citizens with chemical weapons disguised as medicine which slowly inflict many devastating medical conditions The victims suffer a reduced lifespan and are removed from the breeding pool They have established complete control of the public schools which have been transformed into eugenic laboratories These laboratories are used to identify and destroy any positive values that might foster individual development and to identify those to be attacked The teachers and doctors are on the frontline working together to identify the resisters who are attacked for life with chemical weapons under the guise of medical treatment There is a highly coordinated worldwide coverup of the deaths and injuries caused by these weapons This population control agenda can be traced back to the late 1800s when they vowed to eliminate certain bloodlines to purify the human race **The End of Strife** Leland Johnson,2014-11-10 The purpose of this book is to explain both the causes for the social and cultural breakdown s in today s world as well as the solutions to our societal regression The causes come from multiple fronts and did not develop in a matter of days weeks months years decades or even generations The degenerative process that has led humanity to the suicidal path it is currently embarked upon has taken several centuries of progressive corruption to reach this point However there is a way to reverse course and heal our society again returning it to its former strength and health The way in which a true peace can be realized in this world will be explained It must be admitted that what it takes to achieve a more universal peace is difficult and burdensome on people for many and various reasons However when the reader looks at the state of the world today it is hopeful that they will choose the difficult and burdensome road required in order to maintain a peaceful civilization rather than the bloody chaos and anarchy transpiring in today s world **The Reformation Manifesto** Cindy Jacobs,C. Wagner,2009-02 Bestselling author

Cindy Jacobs calls individuals and the church to a new reformation that will transform communities and the nations

Without a Shot Indeed David Risselada, 2021-06-24 Nikita Khrushchev proudly proclaimed the United States would one day awaken as a full blown communist country Americans are gullible he said the United States will be defeated without firing a shot What did he mean by this This book will attempt to answer this question by examining the social sciences used to study our behavior for the purpose of manipulating and changing it The theories of B F Skinner Cass Sunstein and others will be looked at along with scientific models from which our behavior is examined Persuasive communication strategies designed to gain compliance will also be explored along with what is understood about the human reaction to fear Without a Shot Indeed Inducing Compliance to Tyranny will expose the reader to the reality that our behaviors beliefs and attitudes are constantly under the microscope and the target of those seeking to change our nation

Crimes of the Educators Samuel Blumenfeld ,Alex Newman, 2025-01-17 Utopian dictators like Stalin Hitler Pol Pot and Mao are criminals genocidal psychopaths who have killed more human beings in the last hundred years than any other ideologues in history They don't limit their murder to individuals but to entire nations In the United States another form of utopians the progressives have tried to destroy traditional America by strategically dumbing down her people America's future is being crippled on purpose in order to fundamentally transform the nation its values and its system of government Laid out a century ago by progressive luminary John Dewey the fruits of his schemes are plain to see today Dewey got rid of the traditional intensive phonics method of instruction and imposed a look say sight or whole word method that forces children to read English as if it were Chinese The method is widely used in today's public schools which is a major reason there are so many failing public schools that cannot teach children the basics This can only be considered a blatant form of child abuse American author and veteran educator Samuel Blumenfeld and journalist Alex Newman have taken on the public education establishment as never before and exposed it for the de facto criminal enterprise it is Crimes of the Educators reveals how the architects of America's public school disaster implemented a plan to socialize the United States by knowingly and willingly dumbing down the population a mission closer to success than ever as the Obama administration works relentlessly to nationalize K 12 schooling with Common Core The whole word method of teaching children to read introduced by John Dewey and colleagues in the early twentieth century and which permeates Common Core is a significant cause of dyslexia among students Public education's war against religion the great American math disaster promotion of death education and the government's plan to lower standards for all so no one is left behind is destroying the logic reasoning and overall educational prowess of America's next generation According to the Program for International Student Assessment which collects test results from 65 countries for its rankings In reading students in 19 other locales scored higher than U S students In science 22 education systems scored above the U S In mathematics 29 nations and other jurisdictions outperformed the United States Journalist Henry Mencken said it best in 1924 when he wrote that the aim of public education is to reduce as many individuals as

possible to the same safe level to breed and train a standardized citizenry to put down dissent and originality It is time to hold the Department of Education accountable for the crimes of the educators *The Empty Campus* Sergio

Caldarella,2016-11-26 The Empty Campus starting from a documented series of cultural premises depicts an image of society rooted in the ideas of education real learning knowledge and understanding that could serve as an antidote to many of the wrongdoings of our species The main goal of this essay is to address some of the worst facets of the current situation of learning and the overall cultural situation of our time pointing to its human and political implications The Empty Campus grows from a profound concern for the deepest roots of what makes us civilized beings and the passion for learning and understanding that defines civilization in its opposition to barbarism
