The Destruction of Aboriginal Society - Aboriginal Policy and Practice Volume 1 C.D. Rowley, 1970 **Dislocating the Frontier** Deborah Bird Rose, Richard Davis, 2006-03-01 The frontier is one of the most pervasive concepts underlying the production of national identity in Australia Recently it has become a highly contested domain in which visions of nationhood are argued out through analysis of frontier conflict **DISLOCATING THE FRONTIER** departs from this contestation and takes a critical approach to the frontier imagination in Australia The authors of this book work with frontier theory in comparative and unsettling modes The essays reveal diverse aspects of frontier images and dreams as manifested in performance decolonising domains language and cross cultural encounters Genocide of Indigenous Peoples Robert Hitchcock, 2017-09-08 An estimated 350 to 600 million indigenous people reside across the globe Numerous governments fail to recognize its indigenous peoples living within their borders It was not until the latter part of the twentieth century that the genocide of indigenous peoples became a major focus of human rights activists non governmental organizations international development and finance institutions such as the United Nations and the World Bank and indigenous and other community based organizations Scholars and activists began paying greater attention to the struggles between Fourth World peoples and First Second and Third World states because of illegal actions of nation states against indigenous peoples indigenous groups passive and active resistance to top down development and concerns about the impacts of transnational forces including what is now known as globalization This volume offers a clear message for genocide scholars and others concerned with crimes against humanity and genocide much greater attention must be paid to the plight of all peoples indigenous and otherwise no matter how small in scale how little known how invisible or hidden from view **The Aboriginal Tent Embassy** Gary Foley, Andrew Schaap, Edwina Howell, 2013-07-24 The 1972 Aboriginal Embassy was one of the most significant indigenous political demonstrations of the twentieth century What began as a simple response to a Prime Ministerial statement on Australia Day 1972 evolved into a six month political stand off between radical Aboriginal activists and a conservative Australian government The dramatic scenes in July 1972 when police forcibly removed the Embassy from the lawns of the Australian Houses of Parliament were transmitted around the world The demonstration increased international awareness of the struggle for justice by Aboriginal people brought an end to the national government policy of assimilation and put Aboriginal issues firmly onto the national political agenda The Embassy remains today and on Australia Day 2012 was again the focal point for national and international attention demonstrating the intensity that the Embassy can still provoke after forty years of just sitting there If as some suggest the Embassy can only ever be removed by Aboriginal people achieving their goals of Land Rights Self Determination and economic independence then it is likely to remain for some time yet This book explores the context of this moment that captured the world s attention by using predominantly the voices of the people who were there More than a simple oral history some of the key players represented here bring with

them the imprimatur of the education they were to gain in the era after the Tent Embassy This is an act of radicalisation The Aboriginal participants in subversive political action have now broken through the barriers of access to academia and write as both eye witnesses and also as trained historians lawyers film makers It is another act of subversion a continuing taunt to the entrenched institutions of the dominant culture part of a continuum of political thought and action Larissa Behrendt Professor of Law Jumbunna Indigenous House of Learning University of Technology Sydney

An Australian Indigenous Diaspora Paul Burke, 2018-07-27 Some indigenous people while remaining attached to their traditional homelands leave them to make a new life for themselves in white towns and cities thus constituting an indigenous diaspora This innovative book is the first ethnographic account of one such indigenous diaspora the Warlpiri whose traditional hunter gatherer life has been transformed through their dispossession and involvement with ranchers missionaries and successive government projects of recognition By following several Warlpiri matriarchs into their new locations far from their home settlements this book explores how they sustained their independent lives and examines their changing relationship with the traditional culture they represent

The Aboriginal People, Parliament and "protection" in New South Wales, 1856-1916 Anna Doukakis, 2006 This lecture describes South Africa's current attempts to accommodate traditional leadership within the new constitution and system of government

Binan Goonj Toni Dowd, Anne-Katrin Eckermann, Ena Chong, Lynette Nixon, Roy Gray, Sally Margaret Johnson, 2010 The troubled state of Aboriginal health in Australia is a seemingly perennial problem despite ongoing research policies and interventions The second edition of this book examines the processes and practices behind this situation and provides practical strategies to assist in addressing this complex subject

Experiments in self-determination Nicolas Peterson, Fred Myers, 2016-01-21 Outstations which dramatically increased in numbers in the 1970s are small decentralised and relatively permanent communities of kin established by Aboriginal people on land that has social cultural or economic significance to them In 2015 they yet again came under attack this time as an expensive lifestyle choice that can no longer be supported by state governments Yet outstations are the original and most striking manifestation of remote area Aboriginal people's aspirations for self determination and of the life projects by which they seek and have sought autonomy in deciding the meaning of their life independently of projects promoted by the state and market They are not simply projects of isolation from outside influences as they have sometimes been characterised but attempts by people to take control of the course of their lives In the sometimes acrimonious debates about outstations the lived experiences motivations and histories of existing communities are missing For this reason we invited a number of anthropological witnesses to the early period in which outstations gained a purchase in remote Australia to provide accounts of what these communities were like and what their residents' aspirations and experiences were Our hope is that these closer to the ground accounts provide insight into and understanding of what Indigenous aspirations were in the establishment and organisation of these communities This volume will be a great addition not only to the origins and history of outstations but in light of the

closing of over 100 Aboriginal communities in Western Australia it should be a required bedtime reading for all politicians across Australia The contributors do not simply concentrate on the so called outstations movement of the 1970s but rather help the reader understand why in the 1930s 40 50s and 60s Aboriginal people moved away from cattle stations missions and settlements to reconstruct their moral compass in settings which made more contemporaneous sense not only to them but often to the whites who were there as well Professor Francoise Dussart University of Connecticut

The Politics of Identity Michelle Harris, Martin Nakata, Bronwyn Carlson, 2013-01-01 The issue of Indigenous identity has gained more attention in recent years from social science scholars yet much of the discussions still centre on the politics of belonging or not belonging While these recent discussions in part speak to the complicated and contested nature of Indigeneity both those who claim Indigenous identity and those who write about it seem to fall into a paradox of acknowledging its complexity on the one hand while on the other hand reifying notions of tradition and authentic cultural expression as core features of an Indigenous identity Since identity theorists generally agree that who we understand ourselves to be is as much a function of the time and place in which we live as it is about who we and others say we are this scholarship does not progress our knowledge on the contemporary characteristics of Indigenous identity formations The range of international scholars in this volume have begun an approach to the contemporary identity issues from very different perspectives although collectively they all push the boundaries of the scholarship that relate to identities of Indigenous people in various contexts from around the world Their essays provide at times provocative insights as the authors write about their own experiences and as they seek to answer the hard questions Are emergent identities newly constructed identities that emerge as a function of historical moments places and social forces If so what is it that helps to forge these identities and what helps them to retain markers of Indigeneity And what are some of the challenges both from outside and within groups that Indigenous individuals face as they negotiate the line between authentic cultural expression and emergent identities Is there anything to be learned from the ways in which these identities are performed throughout the world among Indigenous groups Indeed why do we assume claims to multiple racial or ethnic identities limits one's Indigenous identity The question at the heart of our enquiry about the emerging Indigenous identities is when is it the right time to say me us we them

Severing the Ties that Bind Katherine Pettipas, 1994-10-28 Religious ceremonies were an inseparable part of Aboriginal traditional life reinforcing social economic and political values However missionaries and government officials with ethnocentric attitudes of cultural superiority decreed that Native dances and ceremonies were immoral or un-Christian and an impediment to the integration of the Native population into Canadian society Beginning in 1885 the Department of Indian Affairs implemented a series of amendments to the Canadian Indian Act designed to eliminate traditional forms of religious expression and customs such as the Sun Dance the Midewiwin the Sweat Lodge and giveaway ceremonies However the amendments were only partially effective Aboriginal resistance to the laws took many forms community leaders challenged the legitimacy of the terms and

the manner in which the regulations were implemented and they altered their ceremonies the times and locations the practices in an attempt both to avoid detection and to placate the agents who enforced the law Katherine Pettipas views the amendments as part of official support for the destruction of indigenous cultural systems She presents a critical analysis of the administrative policies and considers the effects of government suppression of traditional religious activities on the whole spectrum of Aboriginal life focussing on the experiences of the Plains Cree from the mid 1880s to 1951 when the regulations pertaining to religious practices were removed from the Act She shows how the destructive effects of the legislation are still felt in Aboriginal communities today and offers insight into current issues of Aboriginal spirituality including access to and use of religious objects held in museum repositories protection of sacred lands and sites and the right to indigenous religious practices in prison
