The Deuteronomic School History Social Setting And Literature Studies In Biblical Literature Number :

The Deuteronomic School Raymond F. Person, 2002 The group of authors editors responsible for the books of Deuteronomy through Kings as well as the book of Jeremiah are known as the Deuteronomic school In this book the author addresses issues of the history of this group and its social settings in different historical periods The emphasis of this reading of the literature concerns the Persian period setting of the Deuteronomic school The author looks at how knowledge of their history and social setting can influence the interpretation of the literature that they produced Paperback edition is available from the Society of Biblical Literature www.sbl-site.org **Animals as Religious Subjects** Celia

Deane-Drummond, Rebecca Artinian-Kaiser, David L. Clough, 2013-08-15 This book examines one of the most pressing cultural concerns that surfaced in the last decade the question of the place and significance of the animal This collection of essays represents the outcome of various conversations regarding the animal studies and shows multidisciplinary at its very best namely a rigorous approach within one discipline in conversation with others around a common theme The contributors discuss the most relevant disciplines regarding this conversation namely philosophy anthropology religious studies theology history of religions archaeology and cultural studies The first section Thinking about Animals explores philosophical anthropological and religious perspectives raising general questions about the human perception of animals and its crucial cultural significance The second section explores the intriguing topic of the way animals have been used historically as religious symbols and in religious rituals The third section re-examines some Christian theological and biblical approaches to animals in the light of current concerns The final section extends the implications of traditional views about other animals to more specific ethical theories and practices **Bringing Out the Treasure** Mark J. Boda, Michael Floyd, 2003-06-01 It is

generally agreed within Hebrew Bible scholarship that Zechariah 9 14 is filled with allusions to other books within the Hebrew canon Rex Mason's doctoral dissertation in the early 1970s contributed significantly to the foundation of this consensus However although Mason's thesis remains a seminal work for those studying Deutero Zechariah it has never been published This volume contains the first publication of that work together with reflections from leading biblical scholars who have published on Zechariah 9 14 The volume is rounded off with a response by Mason to these scholars and a reflection on his own contribution thirty years ago Journal for the Study of the Old Testament Supplement series Volume 370 **The Book of Kings and Exilic Identity** Nathan Lovell, 2021-02-11 Nathan Lovell proposes that 1 and 2 Kings might be read as a work of written history produced with the explicit purpose of shaping the communal identity of its first readers in the Babylonian exile By drawing on sociological approaches to the role historiography plays in the construction of political identity Lovell argues the book of Kings is intended to reconstruct a sense of Israelite identity in the context of these losses and that the book of Kings moves beyond providing a reason for the exile in Israel's history and beyond even connecting its exilic audience to that history The book recalls the past in order to demonstrate what it means to be Israel in the exilic

present and to encourage hope for the Israelite nation in the future After developing a reading strategy for 1 2 Kings that treats the book as a coherent narrative Lovell examines the construction of Israelite identity within Kings under the headings of covenant nationhood land and rule In each case he suggests that the narrative of the book creates room for a genuine but temporary expression of Israelite identity in exile genuine to show that it remains possible for Israel to be Yahweh s people during the exile but temporary to encourage hope for a future restoration *The Ten Commandments* Timothy S.

Hogue,2023-09-28 The Decalogue commonly known as the Ten Commandments is usually analysed as a text Within the Hebrew Bible however it is depicted as a monument an artifact embedded in rituals that a community uses to define itself Indeed the phraseology visual representations and ritual practices of contemporary monuments used to describe the Ten Commandments imbue them with authority In this volume Timothy Hogue presents a new translation commentary and literary analysis of the Decalogue through a comparative study of the commandments with inscribed monuments in the ancient Levant Drawing on archaeological and art historical studies of monumentality he grounds the Decalogue s composition and redaction in the material culture and political history of ancient Israel and ancient West Asia Presenting a new inner biblical reception history of the text Hogue s book also provides a new model for dating biblical texts that is based on archaeological and historical evidence rather than purely literary critical methods *Mirages in the Desert* Roy E.

Garton,2017-02-06 The story of Massah Meribah is a pluriform tradition within the Hebrew Bible Part One of this book uses redaction analysis to assess diachronically the six reminiscences of this tradition within Deuteronomy Deut 6 16 8 15 9 22 32 13 52 33 8 The relative chronological relationship of these texts and the tradition components they preserve reveals a framework of five formative stages of this story s tradition history from the perspective of the tradents responsible for the production of Deuteronomy Part Two is a redactional study of the tradition s narratives in Exod 17 1 7 and Num 20 1 13 Special attention is devoted to the texts that anchor the Massah Meribah narratives into the Pentateuch In the end Part Two not only corroborates the framework detected in Deuteronomy for the formative stages of the Massah Meribah tradition but it also carries broad implications for the formation of the Pentateuch in general and the Wilderness Narrative in particular

The Hebrew Bible and History: Critical Readings Lester L. Grabbe,2018-12-27 These critical readings explore the history of ancient Israel from the Late Bronze Age to the Persian period as it relates to the Bible Selected by one of the world s leading scholars of biblical history the texts are drawn from a range of highly respected international scholars and from a variety of historical and religious perspectives presenting the key voices of the debate in one convenient volume Divided into five sections each featuring an introduction by Lester Grabbe the volume first covers general methodological principles before following the chronology of Israel s earliest history including two sections on specific cases studies the reforms of Josiah and the wall of Nehemiah A final chapter summarizes many of the historical principles that emerge in the course of studying Israelite history and an annotated bibliography points researchers towards further readings and engagements with

these key themes Judges (2008) Susan Niditch,2011-03-01 Susan Niditch's commentary on the book of Judges pays careful attention to the literary and narrative techniques of the text and yields fresh readings of the book's difficult passages stories of violence ethnic conflict and gender issues Niditch aptly and richly conveys the theological impact and enduring significance of these stories The Old Testament Library provides fresh and authoritative treatments of important aspects of Old Testament study through commentaries and general surveys The contributors are scholars of international standing

The Jehu Revolution Jonathan Miles Robker,2012-08-31 This monograph re-evaluates the literary development of 2 Kings 9-10 within the context of the Deuteronomistic History This undertaking opens with a thorough text and literary critical examination of the pericope arriving at the conclusion that the narrative of 2 Kings 9-10 represents neither an insertion into the Deuteronomistic corpus nor an independent literary tradition Rather when considering the Greek textual traditions of the biblical narrative most especially B and Ant one can appreciate the narrative of Jehu's revolution within the literary context of an extensive politically motivated narrative about the Israelite monarchy covering the period from the reigns of Jeroboam I to Jeroboam II The identification of this pro-Jehuid source within the book of Kings enables a reliable dating into the 8th century BCE for much of the material in Kings focusing on the Northern Kingdom Comparing this biblical narrative to other mostly Mesopotamian and Syrian texts relevant to Israelite history of the period advances the discourse about the veracity of the biblical narrative when contrasted with extrabiblical traditions and permits the plausible reconstruction of Israelite history spanning the 8th and 9th centuries BCE Scribes and Scribalism Mark Leuchter,2020-11-12 This volume is a

concentrated examination of the varied roles of scribes and scribal practices in ancient Israel and Judah shedding light on the social world of the Hebrew Bible Divided into discussion of three key aspects the book begins by assessing praxis and materiality looking at the tools and materials used by scribes where they came from and how they worked in specific contexts The contributors then move to observe the power and status of scribal cultures and how scribes functioned within their broader social world Finally the volume offers perspectives that examine ideological issues at play in both antiquity and the modern context's of biblical scholarship Taken together these essays demonstrate that no text is produced in a void and no writer functions without a network of resources
