The Dialectics Of Diotima:

The Dialectics of Diotima ,1969 **The Dialectics of Diotima** Centaur Press,1970-10 **Dialectics of Diotima** Diotima,1969 **Women's Political and Social Thought** Hilda L. Smith,Berenice A. Carroll,2000 a wide array of time periods cultures and formats Library Journal The first collection of source readings of women s important writings in political and social theory from ancient times to the twentieth century From Sappho of Lesbos to Mary Wollstonecraft and from Jane Addams to Simone Weil these works fill a major gap in materials available for teaching the history of political thought and opens paths for exploring the rich and diverse contributions of women as creators of theory The Metaphysics of Love Stella Sandford,2001-11-01 Emmanuel Levinas is best known for having reintroduced the question of ethics into the Continental philosophical tradition In *The Metaphysics of Love* however Stella Sandford argues that an over emphasis on ethics in the reception of Levinas s thought has covered over both the basis and the details of his philosophical project a metaphysics which affirms the necessity to think of an unqualified transcendence as a first principle Sandford s book is at the same time a powerful feminist critique of both Levinas s gendered philosophical categories and the attempt to reclaim aspects of this philosophy for feminist theory *Plato's Dialectic at Play* Kevin Corrigan,Elena Glazov-Corrigan,2010-12-31 The Symposium is one of Plato s most accessible dialogues an engrossing historical document as well as an entertaining literary masterpiece By uncovering the structural design of the dialogue Plato s *Dialectic at Play* aims at revealing a Plato for whom the dialogical form was not merely ornamentation or philosophical methodology but the essence of philosophical exploration His dialectic is not only argument it is also play Careful analysis of each layer of the text leads cumulatively to a picture of the dialogue s underlying structure related to both argument and myth and shows that a dynamic link exists between Diotima s higher mysteries and the organization of the dialogue as a whole On this basis the authors argue that the Symposium with its positive theory of art contained in the ascent to the Beautiful may be viewed as a companion piece to the Republic with its negative critique of the role of art in the context of the Good Following Nietzsche s suggestion and applying criteria developed by Mikhail Bakhtin they further argue for seeing the Symposium as the first novel The book concludes with a comprehensive reevaluation of the significance of the Symposium and its place in Plato s thought generally touching on major issues in Platonic scholarship the nature of art the body soul connection the problem of identity the relationship between mythos and logos Platonic love and the question of authorial writing and the vanishing signature of the absent Plato himself **Feminism And Philosophy** Nancy Tuana,2018-02-06 The past twenty years have seen an explosion of work by feminist philosophers and several surveys of this work have documented the richness of the many different ways of doing feminist philosophy But this major new anthology is the first broad and inclusive selection of the most important work in this field There are many unanswered questions about the future of feminist philosophy Which of the many varieties of feminist philosophy will last and which will fade away What kinds of accommodations will be possible with mainstream non feminist

philosophy Which will separate themselves and flourish on their own To what extent will feminists change the topics philosophers address To what extent will they change the very way in which philosophy is done However these questions are answered it is clear that feminist philosophy is having and will continue to have a major impact on the discipline of philosophy This volume is the first to allow the scholar the student and other interested readers to sample this diverse literature and to ponder these questions for themselves Organized around nine traditional types of feminist philosophy *Feminism and Philosophy* is an imaginatively edited volume that will stimulate readers to explore many new pathways of understanding It marks a defining moment in feminist philosophy and it will be an essential text for philosophers and for feminist theorists in many other fields

Queer Theology Gerard Loughlin, 2009-02-04 *Queer Theology* makes an important contribution to public debate about Christianity and sex A remarkable collection of specially commissioned essays by some of the brightest and best of Anglo American scholars Edited by one of the leading theologians working at the interface between religion and contemporary culture Reconceptualizes the body and its desires Enlarges the meaningfulness of Christian sexuality for the good of the Church Proposes that bodies are the mobile products of changing discourses and regimes of power

Feminist Interpretations of Plato Nancy Tuana, 2010-11-01 The essays in this anthology explore the full spectrum of Plato's philosophy and are representative of the variety of perspectives within feminist criticism The essays in the first section focus primarily on Plato's social and political theory and in particular the place of women within the state The second section concentrates on examining the role of the feminine within Plato's metaphysics and epistemology Tuana introduces both sections and a detailed bibliography is included

The Dialogues of Plato Plato, 1993-08-25 R E Allen's superb new translation of Plato's Symposium brings this classic text to life for modern readers Allen supplements his translation with a commentary that not only enriches our understanding of Plato's philosophy and the world of Greek antiquity but also provides insights into present day philosophical concerns Allen reveals the unity of Plato's intentions in the Symposium explores the dialogue's major themes and links them with Plato's other dialogues His wide ranging commentary includes discussions of Greek religious social and sexual practices the conceptual connections between the Symposium and Freud the influence of the Symposium on later writers and recent scholarship on the dialogue Allen's primary focus is philosophical however and he succeeds in explicating the doctrine of Eros in Plato's Symposium so that the reader can see how wish and desire relate to Plato's moral philosophy epistemology and metaphysics
