Paul Carus, 2021-08-03 The History of the Devil 1900 is a philosophical study by Paul Carus A lifelong Monist Carus sought to apply a scientific analysis to the principles of humanity's religions Credited with bridging the gap between Eastern and Western beliefs Carus believed that the dualism rampant in the West could be replaced in order to establish a more equitable

world where difference and diversity would be accepted and nurtured rather than suppressed This world of ours is a world of opposites There is light and shade there is heat and cold there is good and evil there is God and the Devil The dualistic conception of nature has been a necessary phase in the evolution in human thought Recognizing the need for dualism in the history of humanity Carus sought to promote the principles of Monism in the West believing it could lead to a universal worldview capable of uniting East and West A positivist and pantheist Carus believed that by pursuing in religion the same path that science travels the narrowness of sectarianism would develop into a broad cosmical religion which shall be as wide and truly catholic as is science itself To lay the groundwork for this cosmical religion he investigates the figure of the Devil and the historical evolution of the concept of evil which he saw as predating belief in goodness and God With a beautifully designed cover and professionally typeset manuscript this edition of Paul Carus The History of the Devil is a classic of philosophy reimagined for modern readers
