Bibliographia Aethiopica II Hans Wilhelm Locket,1998 Erstmals wird hier die Fulle der englischsprachigen Athiopienliteratur geordnet dargeboten In 100 Sections fuhrt der Autor alle fur die wissenschaftliche Beschäftigung mit Athiopien wichtigen Buch und Zeitschriftenbeiträge zum Beispiel zur Historyof Research Archaeology Religion aber auch Fragen der Sociology Agriculture Zoology und Medical Sciences auf Wie im Falle der deutschsprachigen Literatur Bibliographia Aethiopica Die athiopienkundliche Literatur des deutschsprachigenRaumes Aethiopistische Forschungen 9 1982 berucksichtigt der Autor auch alle ihm zuganglichen Besprechungen womit bei einer Aufnahme von mehr als 24 000 Titeln eine Art Bibliographic Encyclopedia entstanden ist Between National Histories and Global History Stein Tønnesson,1997 *Mission and Tamil Society* Henriette Bugge,2020-07-24 Looks to provide an analysis of religion as a dynamic factor in Indian society Not only is the ritual economic and power status of the missionaries examined but also such effects on their converts as social status and mobility The Origins of the Cold War in Europe David Reynolds,1994-01-01 Although the Cold War is over the writing of its history has only just begun This book presents an analysis of the origins of the Cold War in the decade after the Second World War discussing the development of the United States and the Soviet Union as superpowers and the reactions of the Western European states to the growing Soviet American rivalry Drawing on recently opened archives from the former Soviet Union as well as on existing research largely unavailable in English distinguished authorities from each of the countries discussed provide new insight into the Cold War and into the Europe that has been molded by it The book begins with an overview of United States Cold War policy after the war and a pioneering post communist examination of Russian involvement The next chapters focus on the other two members of the wartime alliance Britain and France for which the Cold War was interwoven with concerns such as the maintenance of empire and the continued fear of Germany The book then examines the vanquished countries of World War II Italy and Germany who

particularly in the case of divided Germany were struggling to recover their international status and come to terms with their past The last part of the book considers how the small states Benelux and Scandinavia forged new groupings in the search for security even though conflicts of national interest still persisted between them The authors not only show the impact of superpower policies on each country but also reveal the many ways in which West European states were active participants in Cold War politics trying to draw the Americans into Europe and shaping the blocs that emerged The book sheds light on the European Community in many ways a response to uneasiness about Germany and on NATO whose purpose was once described as keeping the Russians out the Americans in and the Germans down

Shifting Cultures Henriette Bugge, Joan Pau Rubiés, 1995 Cultures shift by absorbing outside influences and dealing creatively with them In the age of European expansion the Europeans gradually changed their view of the world Missionaries propagated their religion and had to learn how to approach those whom they wanted to convert Non Europeans adapted European ideas and used them in their own social context like the Mexican Indian nobleman who re wrote Calderon s plays in Nahuatl or the Brazilians who created a new popular culture This volume contains many interesting contributions of this kind and highlights cultural history which has often been eclipsed by political and economic history

The International History of Communication Study Peter Simonson, David W. Park, 2015-10-14 The International History of Communication Study maps the growth of media and communication studies around the world Drawing out transnational flows of ideas institutions publications and people it offers the most comprehensive picture to date of the global history of communication research and education This volume reaches into national and regional areas that have not received much attention in the scholarship until now including Asia Latin America Africa and the Middle East alongside Europe and North America It also covers communication study outside of academic settings in international organizations like UNESCO and among commercial and civic groups It moves beyond the traditional canon to cover work by forgotten figures including women scholars in the field and those outside of the United States and Europe and it situates them all within the broader geopolitical institutional and intellectual landscapes that have shaped communication study globally Intended for scholars and graduate students in communication media studies and journalism this volume pushes the history of communication study in new directions by taking an aggressively international and comparative perspective on the historiography of the field Methodologically and conceptually the volume breaks new ground in bringing comparative transnational and global frames to bear and puts under the spotlight what has heretofore only lingered in the penumbra of the history of communication study
