The Homeless:

The Homeless Christopher Jencks, 1994 Late in the 1970s Americans began to notice more people sleeping in public places and wandering the streets By the late 1980s the homeless were everywhere a grim reminder of America s social and economic troubles Renowned social analyst Jencks discusses the causes and extent of this problem and what can be done about it Line illustrations and tables *Excel Senior High School* Jenny Harrison, 2002 Address Unknown James D. Wright, 2009 Homelessness in America has grown from a minor problem in isolated areas of a few big cities into a near epidemic Today scarcely any American city of any appreciable size lacks homeless people Homeless shelters and programs have become as essential and as commonplace as police protection or water and sewage treatment What to do for with or about the homeless is a nagging and complex social policy issue debated at all levels of government Address Unknown emphasizes the large scale social and economic forces that have priced an increasingly large segment of the urban poor completely out of the housing market Seen in this light the problem of homelessness is that there are too many extremely poor people competing for too few affordable housing units The nation would be facing a formidable homelessness problem even if there were no alcoholics no drug addicts no deinstitutionalized mentally ill people no personal pathologies of any kind Rather than a choice homelessness is the result of housing markets that have very little to offer to extremely poor people The plight of the homeless is very visible and Address Unknown is one of the first major investigative studies into the nature and multiple causes of the problem Wright considers demographic economic sociological and social policy antecedents of homelessness A hallmark is the delineation of the range of factors involved including deinstitutionalization of the mentally ill urban renewal the decrease in lower skilled jobs changing political priorities and bureaucratic obstacles to providing existing social services to the homeless population James D Wright is a professor in the department of sociology at the University of Central Florida He has published seventeen books including *Armed and Considered Dangerous* and *Under the Gun* as well as many journal articles His current research interests include violence urban poverty and inequality health and the homeless population and the divorce reform movement **The Homeless Situation in Michigan** United States. Schutt, Gerald R. Garrett, 2013-11-21 Responding to the

Homeless Policy and Practice is largely a product of a unique collaboration between Russell K Schutt and Gerald R Garrett and their Boston community. As such it offers a rich perspective on the problem of homelessness that is derived from the authors' shared experience with researchers, academics, students, providers, policymakers, and homeless persons themselves. Schutt and Garrett take the reader into the shelters and acquaint him or her with the philosophical and practical dilemmas facing line workers as well as policymakers. They also take the reader into the community to better understand the housing market and the dysfunctional continuities among shelter, housing, treatment, and social supports. There are sensitive discussions of the salient health problems that too commonly touch the lives of homeless individuals such as substance abuse and AIDS. The volume also includes clear descriptions of the sometimes elusive processes of counseling and case management for homeless individuals. The sidebars of what to do and what not to do contain useful information that will both inform and empower individuals who are working on the front lines and inspire and prepare future caregivers. While the eminently readable organization and style of the book are suggestive of a highly practical handbook on the basics of homelessness, the authors and their contributors have also produced a scholarly volume that is replete with current research findings, programs, descriptions, case studies, and vignettes.
