The House Of Intellect Hardcover By Barzun Jacques:

The House of Intellect Jacques Barzun, 1959 Discusses the strengths and weaknesses of intellectualism in the twentieth century

The House of Intellect Jacques Barzun, 2002-12-03 In this international bestseller originally published in 1959 Jacques Barzun acclaimed author of *From Dawn to Decadence* takes on the whole intellectual or pseudo intellectual world attacking it for its betrayal of Intellect Intellect is despised and neglected Barzun says yet intellectuals are well paid and riding high He details this great betrayal in such areas as public administrations communications conversation and home life education business and scholarship In this edition s new Preface Jacques Barzun discussess the intense and controversial reaction the world had to *The House of Intellect*

Intellectuals and Society Thomas Sowell, 2012-03-06 The influence of intellectuals is not only greater than in previous eras but also takes a very different form from that envisioned by those like Machiavelli and others who have wanted to directly influence rulers It has not been by shaping the opinions or directing the actions of the holders of power that modern intellectuals have most influenced the course of events but by shaping public opinion in ways that affect the actions of power holders in democratic societies whether or not those power holders accept the general vision or the particular policies favored by intellectuals Even government leaders with disdain or contempt for intellectuals have had to bend to the climate of opinion shaped by those intellectuals

Intellectuals and Society not only examines the track record of intellectuals in the things they have advocated but also analyzes the incentives and constraints under which their views and visions have emerged One of the most surprising aspects of this study is how often intellectuals have been proved not only wrong but grossly and disastrously wrong in their prescriptions for the ills of society and how little their views have changed in response to empirical evidence of the disasters entailed by those views

Culture, Industrialisation and Education G. H. Bantock, 2021-06-23 First published in 1968 *Culture Industrialisation and Education* explores the cultural values that underlie the content of educational provisions and the way in which industrialisation and the mass communication characteristic of advanced technology have affected what is offered in schools The book puts forward the argument that the traditional curriculum with its emphasis on cognitive and intellectual processes is in many cases irrelevant to the needs of children whose futures are in occupations that do not centre on academic pursuits It highlights the distinct lack of provision for these children at a time when a fuller and longer secondary education is being attempted for the whole population *Culture Industrialisation and Education* will appeal to those with an interest in the history and sociology of education
