The House The Left Built Inside Labour Policy Making 1970 1975

Richard Jobson

The House The Left Built Inside Labour Policy Making 1970 1975:

Television Policies of the Labour Party 1951-2001 Des Freedman, 2004-08-02 Des Freedman explores Labour's divided response to the development of commercial television in the 1950s and assesses the impact of Wilson's governments on television in the 1960s. His key argument is that Labour has always been a vigorous but ultimately unreliable advocate of television.

A History of the British Labour Party Andrew Thorpe, 2017-09-16 After 13 years in power Labour suddenly returned to being the party of opposition in 2010. This new edition of *A History of the British Labour Party* brings us up to date examining Gordon Brown's period in office and the Labour Party under the leadership of Ed Miliband. Andrew Thorpe's study has been the leading single volume text on the Labour Party since its first edition in 1997 and has now been thoroughly revised throughout to include new approaches. This new edition covers the entirety of the party's history from 1900 to 2014. Examines the reasons for the party's formation and its aims. Analyses the party's successes and failures including its rise to second party status and remarkable recovery from its problems in the 1980s. Discusses the main events and personalities of the Labour Party such as MacDonald, Attlee, Wilson, Blair and Brown. With his approachable style and authoritative manner Thorpe has created essential reading for students of political history and anyone wishing to familiarise themselves with the history and development of one of Britain's major political parties.

How Labour Governments Fall T. Heppell, K. Theakston, 2013-07-30 What similarities exist between the reasons for Labour losing office in 2010 and those behind why previous Labour governments were defeated? This edited volume provides a detailed historical appraisal which considers the importance of themes such as economic performance, political leadership and the condition of the Conservatives in opposition.

Nostalgia and the post-war Labour Party Richard Jobson, 2018-01-08 This book examines the impact that nostalgia has had on the Labour Party's political development since 1951. It argues that nostalgia has defined Labour's identity and determined the party's trajectory. Nostalgia has hindered policy discussion, determined the form and parameters of party modernisation, shaped internal conflict and cohesion and made it difficult for the party to adjust to socioeconomic changes. It has frequently left the party out of touch with the modern world. In this way, this study offers an assessment of Labour's failures to adapt to the changing nature of post-war Britain and will be of interest to both students and academics and to those with a more general interest in Labour's history and politics.

The Modern British Party System Paul Webb, 2000-09-22 Providing a complete up to date overview of the changing nature of contemporary party politics in Britain, this book draws on models of comparative politics and the latest empirical analysis to explain the capacity of British parties to adapt to a changing political environment. A number of broad themes include the nature and extent of party competition, the internal life and organizational development of parties, the variety of evolving party systems in the United Kingdom and the links between parties and the wider political system. The current weaknesses of party performance are addressed and the scope of reform explained and examined. Contrary to claims of decline, however, the book demonstrates that party politics

How Parties Organize Richard S Katz, Peter Mair, 1994-11-15 This book takes a close look inside political parties bringing together the findings of an international team of leading scholars Building on a unique set of cross national data on party organizations the contributors set out to explain how parties organize how they have changed and how they have adapted to the changing political and organizational circumstances in which they find themselves The contributors are recognized authorities on the party systems of their countries and have all been involved in gathering data on party membership party finance and the internal structure of power They add to the analysis of these original data an expert knowledge of the wider political patterns in their countries and thus provide insight into the development of parties and party systems from the perspective of party organizations themselves How Parties Organize offers the most systematic and comparable analysis of party organization in contemporary Europe and the United States Interpreting the Labour Party John Callaghan, Steven Fielding, Steve Ludlam, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license Interpreting the Labour Party consists of twelve essays on the principal thinkers and schools of thought concerned with the political and historical development of the Labour Party and Labour movement The essays are written by contributors who have devoted many years to the study of the Labour Party the trade union movement and the various ideologies associated with them The book begins with an in depth analysis of how to study the Labour Party and goes on to examine key periods in the development of the ideologies to which the party has subscribed Each chapter situates its subject matter in the context of a broader intellectual legacy including the works of Sidney and Beatrice Webb Theodore Rothstein Stuart Hall and Samuel Beer among others *Rethinking Labour's Past* Nathan Yeowell, 2022-01-13 The Labour Party after Jeremy Corbyn is charting a new direction Here Nathan Yeowell has brought together a remarkable array of contributors to provide expert insight into twentieth century British history and Labour politics and how they might shape thinking about Labour's future Reframing the span of Labour history and its effects on contemporary British politics the book provides fresh thinking and analysis of various traditions themes and individuals These include the shifting significance of 1945 the need for more grounded interpretations of Tony Blair's legacy and the enduring importance of place identity and aspiration to the evolution of the party Contributions from leading historians such as Patrick Diamond Steven Fielding Ben Jackson Glen O Hara and Florence Sutcliffe Braithwaite are supplemented by those with experience of Labour electoral politics such as Rachel Reeves and Nick Thomas Symonds The result is an intellectually rich and politically relevant roadmap for Labour's future Industrial Policy and the Motor Industry Stephen Wilks, 1988 *The Labour Party in Opposition 1970-1974* Patrick Bell, 2012-11-12 1970 to 1974 was a pivotal period in the history of the Labour Party This book shows how the Labour Party responded to electoral defeat in 1970 and to what extent its political and policy activity in opposition was directed to the recovery of power at the following general election At a point in Labour's history when social democracy had apparently failed this book considers what the party came up with in its place The story of

the Labour Party in opposition 1970 1974 is shown to be one of a major political party sustaining policy activity of limited relevance to its electoral requirements Not only that but Labour regained office in 1974 with policies on wages and industrial relations whose unworkability led to the failure of the Labour government 1974 1979 and the Labour Party s irrelevance to so many voters after 1979 Using primary sources the author documents and explains how this happened focusing on the party s response to defeat in 1970 and the behaviour of key individuals in the parliamentary leadership in response to pressure for a review of policy

Yeah, reviewing a book **The House The Left Built Inside Labour Policy Making 1970 1975** could go to your near connections listings. This is just one of the solutions for you to be successful. As understood, deed does not suggest that you have fabulous points.

Comprehending as competently as treaty even more than other will offer each success. neighboring to, the proclamation as skillfully as perception of this The House The Left Built Inside Labour Policy Making 1970 1975 can be taken as with ease as picked to act.
