

The background of the book cover is a photograph showing a person's silhouette standing in a wooded area. The person is positioned in the lower-left center, looking towards a bright, circular light source (likely the sun or moon) that is partially obscured by the branches of a tree. The scene is bathed in a soft, golden light, creating a contemplative and serene atmosphere. The trees are dark and their branches are silhouetted against the lighter sky.

Todas estas investigaciones académicas dejan entrever lo que representa exactamente su poética de desintegración y la descomposición del viejo mundo corrupto a favor de una visión apocalíptica de un nuevo mundo categorizaciones abstractas de lo sobrenatural que dan paso a una experiencia íntima y más dinámica de lo sagrado en el hogar y en el mundo.

Heretic Blood Michael W. Higgins, 2016-10-31 Thirty years after his death we are finally catching up to Thomas Merton as one of the greatest spiritual figures of the twentieth century. The genius and spirituality of this unusual man could not be contained in his life as a monk but spilled over richly into his life and work as a poet, critic, rebel, sage, and even artist and photographer. Merton was aware that he had heretic blood within him and it soon became apparent to the world. The balding French-English intellectual living as a Trappist monk at Our Lady of Gethsemani Abbey in Kentucky took a vow of silence yet corresponded with and befriended such luminaries as Joan Baez, Jacques Maritain, John Howard Griffin, Martin Luther King Jr., Erich Fromm, and Boris Pasternak. His famous autobiography *The Seven Storey Mountain* captured the imagination of a generation, selling more than six hundred thousand copies in its first year. Merton also took a vow of obedience yet feuded constantly with his second abbot. As a monk he promised to remain celibate yet he found himself passionately in love with a nurse he met while in hospital in Louisville, Kentucky. And at the end of his life, Merton, a monk within the western Roman Catholic tradition, was moving closer and closer to Eastern spirituality. This brilliant new book is the first to use recently released diary entries and correspondence by Merton and includes new insights about the recently published diary of his episode of the heart. Higgins compares Merton with William Blake, the monk's intellectual and spiritual hero, and comes to startling conclusions about the emotional and intellectual passions that drove Thomas Merton, a man and thinker for all seasons.

Rhetoric, Religion and the Civil Rights Movement, 1954-1965 Davis W. Houck, David E. Dixon, 2006 V 2 Building upon their critically acclaimed first volume, Davis W. Houck and David E. Dixon's new *Rhetoric, Religion and the Civil Rights Movement, 1954-1965* is a recovery project of enormous proportions. Houck and Dixon have again combed church archives, government documents, university libraries, and private collections in pursuit of the civil rights movement's long buried eloquence. Their new work presents fifty new speeches and sermons delivered by both famed leaders and little-known civil rights activists on national stages and in quiet shacks. The speeches carry novel insights into the ways in which individuals and communities utilized religious rhetoric to upset the racial status quo in divided America during the civil rights era. Houck and Dixon's work illustrates again how a movement so prominent in historical scholarship still has much to teach us.

A New Handbook of Christian Theologians Donald W. Musser, 1996 In recent years the flow of Christian theology has been channeled in diverse streams represented by such trends and movements as black theology, liberation theology, feminist theology, and womanist theology. To survey this abundance and diversity of current Christian theology, this book examines the theologies of representative theologians. Particularly to help students navigate the sea of

information the editors have identified various routes for reading and have traced several threads or issues common to many of the essays thus demarcating such recurrent concerns as the ways in which the theologians consider the sources and goals for theology their variant assumptions and conclusions about the nature of God their divergent approaches to understanding the person and purpose of the Christ and their distinct expectations for the destiny of history and faith
