The Origins of Religion and Language Frederic Charles Cook, 1884 The Origins of Religion Rafael Karsten, 2020-09-23 This book first published in 1935 collects together material on the origins of religion from two very different sources: South America, where the author spent six years studying the religious beliefs and customs of several Indian tribes representing different stages of culture; and the Finno-Ugrian area, where Finnish and Russian ethnologists had brought to light a new body of facts which formed an important addition to our knowledge of religious life at an early stage of cultural development. This book is a key work in the study of comparative religion and is an essential reference source on the origins of religion.
