Congress, 1978 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789-1824 the Register of Debates in Congress 1824-1837 and the Congressional Globe 1833-1873 **Scripting Genocide** Nicholas K. Johnson, 2025-06-30 Scripting Genocide traces the history of how and why the Wannsee Conference has repeatedly attracted the attention of American British and German artists writers and filmmakers since 1960 Almost all of their televisual depictions of the conference itself are sparse minimalist dialogue driven productions Their subtle almost scholarly projection of the conference stands in stark contrast to the large scale and often critically acclaimed attention devoted to other aspects of the Holocaust in both big budget theatrical films and European art cinema Scripting Genocide investigates how the dramatic fictionalized depictions of the Wannsee Conference offered filmmakers and especially screenwriters opportunities to be public historians This book also contains the final interviews with screenwriters Paul Mommertz and Loring Mandel Following the methods of the New Film History which is grounded in archival production material oral history interviews and screenplay analysis this book asks why and how filmmakers have grappled with portraying Wannsee in dramatic form since the 1960s Each of these docudramas contributed to a diffuse body of work the author conceptualizes as antifascist television In the end all of these productions argue that words prefigure deeds History of South Dakota Doane Robinson, 1904 **Rethinking Contemporary Social Theory** Roberta Garner, Black Hawk Hancock, Grace Budrys, 2017-09-19 The authors recontextualize contemporary sociological theory to argue that in recent decades sociology has been deeply permeated by a new paradigm conflict constructionism Their analysis integrates and sheds new light on eight prominent domains of recent social thought the micro level discourses framing and renewed interest in signs and language the construction of difference and dominance regulation and punishment cultural complexity and transculturation the body new approaches to the role of the state and a consistent conflict perspective The paradigm combines elements of both social construction theory and conflict theory It has deep roots in critical theory and more recent links to postmodernism It is associated with postmodern social thought although it is less radical and more adaptable to empirical inquiry than postmodernism The authors tie their new conceptualization of social theory to contemporary
