The Deified Life:

Deified Person Nicholas Bamford, 2011-11-26 Deified Person A Study of Deification in Relation to Person and Christian Becoming focuses on a theological exploration of person through the notion of deification and is placed within a Christian Orthodox Byzantine context The book offers new interpretations of person in relation to Christian becoming while at the same time exploring some of the difficult avenues of Christian theological developments Nicholas Bamford encourages theological inquiry and the book will appeal to those who wish to challenge ideas and push the boundaries forward

Deified Vision: Towards an Anagogical Catholicism Philip Krill, 2017-09-29 **DEIFIED VISION TOWARDS AN ANAGOGICAL CATHOLICISM** is an attempt at activating an anagogical imagination It requires of us that we pray for a share in God's own contemplation of the world that we allow our imaginations to get lifted up into His own that we desire to receive through the illumination of His Holy Spirit a participation in His own love and desire for all He has created One author has called this process acquiring an epistemic participation in the Mind of Christ **The One Christ** David Vincent Meconi, 2013 By treating Augustine's passages on deification both chronologically and constructively Meconi situates Augustine in a long chorus of Christian pastors and theologians who understand the essence of Christianity as the human person's total and transformative union with God **With All the Fullness of God** Jared Ortiz, 2021-01-12 Christians confess that Christ came to save us from sin and death But what did he save us for One beautiful and compelling answer to this question is that God saved us for union with him so that we might become partakers of the divine nature 1 Pet 2:4 what the Christian tradition has called deification This term refers to a particular vision of salvation which claims that God wants to share his own divine life with us uniting us to himself and transforming us into his likeness While often thought to be either a heretical notion or the provenance of Eastern Orthodoxy this book shows that deification is an integral part of Catholicism Orthodoxy and many Protestant denominations Drawing on the resources of their own Christian heritages eleven scholars share the riches of their respective traditions on the doctrine of deification In this book scholars and pastor scholars from diverse Christian expressions write for both a scholarly and lay audience about what God created us to be adopted children of God who are called even now to be filled with all the fullness of God Eph 3:19 The Oxford Handbook of Deification Paul L. Gavrilyuk, Andrew P. Hofer, Matthew Levering, 2024-07-19 Modern theological engagements on deification have undergone two major paradigm shifts First the study of deification shifted from the periphery of theological discourse to its center For Adolf von Harnack deification was a pagan import that fatally corrupted and distorted the Gospel message of salvation In response the positive retrieval of the concept of deification belongs to the early years of the twentieth century By the 1910s in Russian religious thought and by the 1930s in much Roman Catholic theology deification had become a magnet concept attracting attention from many different viewpoints The second important shift relates to how deification is characterized Recent studies question the exclusively Eastern character of deification and draw attention to the engagements

of this theme in Latin patristic and later Western Christian sources Reassessing the evidence for these two major shifts The Oxford Handbook of Deification comprehensively explores the points of convergence and difference on the constitutive elements of deification in different traditions and offers a foundation for ecumenical and interreligious dialogues The Handbook s first part analyzes the cultural and scriptural roots of deification the second part explores the most significant historical contributions to the understanding of deification in the early medieval and modern periods the third part develops systematic connections Readers will discover a surprising breadth depth and diversity of theologies of deification in Christian traditions Throughout the Handbook leading scholars in the field of Deification Studies propose vital new insights from a variety of perspectives for this central mystery at the heart of the Christian faith *Mysticism* Evelyn Underhill,2012-04-03

DIVClassic introduction to mysticism and mystical consciousness awakening of the self purification voices and visions ecstasy and rapture dark night of the soul much more div Mysticism Evelyn Underhill,1912 **Divinization** Andrew Hofer OP,2015-05-04

Divinization Becoming Icons of Christ through the Liturgy explains the startling claim so often overlooked that God transforms the Christian people through the Church s liturgy to share in his divine nature This resource serves as an excellent introduction to the Catholic theology of divinization through the Liturgy This remarkable work forms a coherent introduction to how God makes the faithful in the pews partakers in his divine nature through the action of the liturgy

Triadosis Eduard Borysov,2021-01-01 The complex nature of Christian communion with a personal God requires a nuanced expression Since its inception the early church affirmed God s unknowable nature and also participation in God through Christ The church fathers employed the language of theosis in talking about union with God and human transformation in the likeness of God However the term theosis or deification is a broad category and requires precise explanation to avoid human dissolution into the divine in the mystical union it attempts to describe In Triadosis Eduard Borysov offers a new approach to the conundrum of the imparticipable divine nature and the prospect of personal union between human and the Trinity Most significantly he proposes that if God is Trinity then we are created and restored in the image of the same tri personal God Human Perfection in Byzantine Theology Alexis Torrance,2020 This work studies the approach to the question of human perfection in a number of seminal Byzantine theological figures from 7th 14th centuries in conversation with modern Orthodox Christian thought The Byzantine authors examined include Maximus the Confessor Theodore the Studite Symeon the New Theologian and Gregory Palamas
