**Ghost Stories in Late Renaissance France** Timothy Chesters, 2011-01-13 Caught in the grip of savage religious war fear of sorcery and the devil and a deepening crisis of epistemological uncertainty the intellectual climate of late Renaissance France c 1550 1610 was one of the most haunted in European history Although existing studies of this climate have been attentive to the extensive body of writing on witchcraft and demons they have had little to say of its ghosts Combining techniques of literary criticism intellectual history and the history of the book this study examines a large and hitherto unexplored corpus of ghost stories in late Renaissance French writing These are shown to have arisen in a range of contexts far broader than was previously thought whether in Protestant polemic against the doctrine of purgatory humanist discussions of friendship the growing ethnographic consciousness of New World ghost beliefs or courtroom wrangles over haunted property Chesters describes how over the course of this period we also begin to see emerge characteristics recognisable from modern ghost tales the setting of the haunted house the eroticised ghost or the embodied revenant Taking in prominent literary figures including Rabelais Ronsard Montaigne d Aubign as well as forgotten demonological tracts and sensationalist pamphlets Ghost Stories in Late Renaissance France sheds new light on the beliefs fears and desires of a period on the threshold of modernity It will be of interest to any scholar or student working in the field of early modern European history literature or thought

**Rabelais in Context** Barbara C. Bowen, 1993      **François Rabelais and the Renaissance Physiology of Invention** Raphaële Garrod, 2024-12-18

François Rabelais and the Renaissance Physiology of Invention Ingenious Animation explores the medical poetics of inventive embodied thinking or ingenuity instantiated in Rabelais Gargantua and mostly in his Quart livre It unsettles established dichotomies in Rabelaisian scholarship between Rabelais's lowly laughter and his high erudite message and reassesses the Rabelaisian grotesque by highlighting its debts to grotesque ornament this marginal yet omnipresent Renaissance visual art Bodily functions are a trademark of Rabelais's poetics Scholarship has read them as signs of carnivalesque inversion in line with the Bakhtinian grotesque or of satirical degradation in both instances the lowly is opposed to the high the belly to the head Yet for a physician like Rabelais the head or the brain as the site of cognition is not opposed to what is below it the chest as the site of breathing the belly and its nether regions as sites of nutrition and generation In Renaissance medicine these are integrated physiological systems whose products fuel each other's operations including cognition Read through this lens and alongside his diagnosis of the healthy or diseased culture of his time rotting scholasticism the humanist digestion of the classical heritage or the schismatic convulsions shaking Christianity Rabelais's fictions testify to his reflexive investigation into how culture results from physiological processes fuelling the inventive ability of the human animal made manifest in pedagogical artistic mechanical and spiritual inventions They display the life rather than the truth of culture stemming from human ingenia that is wits conditioned by biological natures While these might be idiosyncratic their animation is fuelled and shaped by the food one eats the air one breathes the places one inhabits the company one keeps In this respect Rabelaisian fiction is grotesque in a period sense With its emphasis on hybrid forms capturing the metamorphic powers of animation grotesque ornament reflexively commented on the embodied inventive processes underpinning Renaissance mimesis Rabelais's fictions display a similar logic they foreground the inventive powers of ingenious animation and articulate reflexive often ironic alternatives to the humanist views they alter a thoroughly embodied anthropology a naturalist genealogy of cultural production and transmission a phantastical account of artistic invention as uncanny liveliness

**Rabelais's Contempt for Fortune** Timothy Haglund, 2018-11-19

François Rabelais wrote Gargantua and Pantagruel at the height of the Renaissance when top caliber thinkers aimed to unite the best of freshly rediscovered ancient Greco Roman theory and practice and transform politics Through his work Rabelais offers his unique understanding of ancient philosophy and political thought This book considers the role of fortune as the key to understanding Rabelais much in the manner of contemporaries such as Machiavelli The two could not be more different

however Throughout his writings Rabelais attempts to restore respect for the goddess Fortuna through a cheerful restatement of the case for the sober classical attitude toward future things As Rabelais's headstrong character Panurge seeks counsel regarding his marriage prospects various authorities repeatedly warn him that cuckoldry and spousal abuse await Panurge looks foolhardy during these admonitions Far from affirming Machiavelli's instruction given in chapter 25 of *The Prince* to beat fortune like a woman Rabelais dramatizes Panurge learning that his future femme may beat him Through this dramatization Panurge begins to hear the merits of viewing fortune as an intractable part of life that must be shouldered with the proper inner disposition rather than as an object susceptible of human conquest

The Politics of Print During the French Wars of Religion Gregory P. Haake, 2020-10-12 In *The Politics of Print During the French Wars of Religion* Gregory Haake examines how in late sixteenth century France authors and publishers used the new medium of the printed text to control the terms of public discourse and determine history or at least their narrative of it The creativity of the Renaissance ushered in new instability of discourse and a decline of traditional centres of authority Gregory Haake shows that poets authors printers and polemicists including historians such as Simon Goulart the great poets of the time such as Pierre de Ronsard or Agrippa d'Aubign or anonymous authors of polemical texts rushed in to take advantage of discursive uncertainty to discredit their enemies and shape the meaning of history as it unfolded
