Goodman, Masanori Miyazawa, 2000-01-01 Shortly before releasing deadly sarin gas on the Tokyo subway in March 1995 the Aum Shinrikyo religious cult published a vicious 95 page antisemitic tract that declared war on its Jewish archenemy The gassing of the Tokyo subway was the culmination of a century of Japanese theorizing about Jews an important part of which has been antisemitic In recent years books blaming Jews for everything from the designs on Japanese currency to the 1995 Kobe earthquake have appeared and some have sold millions of copies What explains this virtual obsession with Jews in Japan a country that has no Jews In this highly original cultural and intellectual history David G

Goodman and Masanori Miyazawa show that present day Japanese attitudes toward Jews are the result of a process of accretion that began nearly 200 years ago Skillfully tracing the historical development of Japanese images of Jews against the background of the development of modern Japanese culture they describe how these images reflect the great themes of modern Japanese intellectual life Spanning fields ranging from politics to poetry the authors demonstrate how Japanese attitudes toward Jews have had real political and cultural consequences culminating in the 1995 subway gassing and resonating into the twenty first century

Poems Containing History Gary Grieve-Carlson, 2013-11-08 Ezra Pound's definition of an epic as a poem containing history raises questions how can a poem contain history And if it can does it help us to think about history in ways that conventional historiography cannot Poems Containing History Twentieth Century American Poetry's Engagement with the Past by Gary Grieve Carlson argues that twentieth century American poetry has contained and helped its readers to think about history in a variety of provocative and powerful ways Tracing the discussion of the relationship between poetry and history from Aristotle's Poetics to Norman Mailer's The Armies of the Night and Hayden White's Metahistory the book shows that even as history evolves into a professional academic discipline in the late nineteenth century and as its practitioners emphasize the scientific aspects of their work and minimize its literary aspects twentieth century American poets continue to take history as the subject of their major poems Sometimes they endorse the views of mainstream historians as Stephen Vincent Benét does in John Brown's Body but more often they challenge them as do Robert Penn Warren in Brother to Dragons Ezra Pound in The Cantos or Charles Olson in The Maximus Poems In Conquistador Archibald MacLeish illustrates Aristotle's claim that poetry tells more philosophical truths about the past than history does while in Paterson William Carlos Williams develops a Nietzschean suspicion of history's value Three major American poets T S Eliot in Four Quartets Hart Crane in The Bridge and Carolyn Forché in The Angel of History present different challenges to professional historiography's assumption that the past is best understood in strictly material terms Poems Containing History devotes chapters to each of these poets and offers a clear sense of the seriousness with which American poetry has engaged the past as well as the great variety of those engagements
