

The Hovering Giant

Cole Blasier

The Hovering Giant:

The Hovering Giant Cole Blasier, 1976 *The Hovering Giant (Revised Edition)* Cole Blasier, 1985-01-15 In the first edition of *The Hovering Giant* Cole Blasier analyzed U S response to revolutions in Latin America from Madero in Mexico to Allende in Chile He explained why U S leaders sponsored paramilitary units to overthrow revolutionary governments in Guatemala and Cuba and compromised their own differences with revolutionary governments in Mexico and Bolivia The protection of private U S interests was part of the explanation but Blasier gave greater emphasis to rivalry with Germany or the Soviet Union Now in this revised edition Blasier also examines the responses of the Carter and Reagan administrations to the Grenadian and Nicaraguan revolutions and the revolt in El Salvador He also brings up to date the interpretation of U S Cuban relations Blasier stresses U S defense of its preeminent position in the Caribbean Basin as well as rivalry with the Soviet Union to explain these later U S responses Seemingly unaware of historical experience Washington followed patterns in Central America and Grenada similar to earlier patterns in Guatemala Cuba and Chile even though the latter had adverse effects on U S security and economic interests *Neighborly Adversaries* Michael J. LaRosa, Frank O. Mora, 2007 Providing a balanced and interdisciplinary interpretation this comprehensive reader traces the troubled U S Latin American relationship from the beginning of the nineteenth century to the post 9 11 period Thoroughly revised and updated the second edition includes original essays on critical issues such as immigration and the environment In addition a new section helps students understand the most important themes and topics that unify and divide the United States and Latin American nations today The readings are framed by the editors opening chapter on the history of the relationship part introductions and abstracts for each selection Methodologically interdisciplinary yet comparative and historical in organization and structure this collection will benefit students and specialists of Latin America s complex historical social and political relationship with its northern neighbor Latin America's International Relations and Their Domestic Consequences Jorge I. Domínguez, 1994 First Published in 1994 Routledge is an imprint of Taylor Francis an informa company The MAC Flyer, 1977 *Handbook Of Research On The International Relations Of Latin America And The Caribbean* G. Pope Atkins, 2018-02-12 The study of Latin American and Caribbean international relations has a long evolution both within the development of international relations as a general academic undertaking and in terms of the particular characteristics that distinguish the approaches taken by scholars in the field This handbook provides a thorough multidisciplinary reference guide to the literature on the various elements of the international relations of Latin America and the Caribbean Citing over 1600 sources that date from the nineteenth century to the present with emphasis on recent decades the volume s analytic essays trace the evolution of research in terms of concepts issues and themes The Handbook is a companion volume to Atkins *Latin America and the Caribbean in the International System* Fourth Edition but also serves as an invaluable stand alone reference volume for students scholars researchers journalists and practitioners both official and private *The CIA on*

Campus Philip Zwerling, 2011-09-05 Former CIA Personnel Director F W M Janney once wrote It is absolutely essential that the Agency have available to it the greatest single source of expertise the American academic community To this end the Central Intelligence Agency has poured tens of millions of dollars into universities to influence research and enlist students and faculty members into its ranks This collection of nine essays from diverse academic fields explores the pernicious penetration of intelligence services into U S campus life to exploit academic study recruit students skew publications influence professional advancement misinform the public and spy on professors With its exhaustive list of CIA misdeeds and myriad suggestions for combatting the subversion of academic independence this work provides a wake up call for students and faculty across the country

The Last Years of the Monroe Doctrine: 1945-1993 Gaddis Smith, 2015-12-01 In a cogent study Smith explains how the U S molded the U N Charter to bar the U N from political involvement in the West Publishers Weekly When President Monroe issued his 1823 doctrine on U S policy in the Western Hemisphere it quickly became as sacred to Americans as the Declaration of Independence and the Constitution But in the years after World War II notably in Guatemala in 1954 in Brazil in 1963 in Chile in 1973 and in El Salvador in the 1980s our government's policy of supporting repressive regimes in Central and South America hastened the death of the very doctrine that had been invoked to protect us in the Cold War by associating its application with torture squads murder and the denial of the very democratic ideals the Monroe Doctrine was intended to protect Gaddis Smith's measured but devastating account The Last Years of the Monroe Doctrine is essential reading for all those who care how the United States behaves in the world arena

International History of the Twentieth Century and Beyond Anthony Best, 2008 This major global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors cover events in Europe Asia the Middle East Africa and the Americas from the last century and beyond Among the areas this book covers are the decline of European hegemony over the international order the diffusion of power to the two superpowers the rise of newly independent states in Asia and Africa the course and consequences of the major

Historical Dictionary of the Cold War Joseph Smith, Simon Davis, 2017-03-15 Cold war was a term coined in 1945 by left leaning British writer George Orwell to predict how powers made unconquerable by having nuclear weapons would conduct future relations It was popularized in 1947 by American journalist Walter Lippmann amid mounting tensions between the erstwhile World War II Allies the capitalist democracies the United States of America and Britain versus the Soviet Union a communist dictatorship As the grand alliance of the Big Three they had defeated Nazi Germany its satellites and Japan in World War II but became rivals who split the world into an American led Western bloc and Soviet led Eastern bloc Both were secured from direct attack by arraying ever greater nuclear and conventional forces against the other while seeking global supremacy by other means The 45 year Cold War lasted until the Soviet Union collapsed between 1989 and 1991 This second edition of Historical Dictionary of the Cold War contains a chronology an

introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities crucial countries and peripheral conflicts the increasingly lethal weapons systems and the various political and military strategies This book is an excellent resource for students researchers and anyone wanting to know more about this crucial period in history

Whispering the Strategies of Language: An Mental Quest through **The Hovering Giant**

In a digitally-driven earth where displays reign great and instant connection drowns out the subtleties of language, the profound secrets and mental subtleties hidden within words frequently go unheard. Yet, set within the pages of **The Hovering Giant** a charming literary value pulsing with fresh thoughts, lies an extraordinary journey waiting to be undertaken. Penned by an experienced wordsmith, this charming opus encourages visitors on an introspective journey, delicately unraveling the veiled truths and profound affect resonating within the very material of each and every word. Within the psychological depths of the moving review, we can embark upon a sincere exploration of the book's primary subjects, dissect their interesting publishing design, and yield to the strong resonance it evokes heavy within the recesses of readers' hearts.
