The Human Record

SIXTH EDITION

VOLUME I: To 1700

VOLUME II: Since 1500

The Human Record is the leading primary source reader for world history courses. Each volume contains a blend of visual and textual sources that reflect the myriad experiences of the peoples of the world; these sources are often paired or grouped together for comparison. A prologue entitled "Primary Sources and How to Read Them" appears in each volume and teaches students how to approach and analyze historical sources. Detailed part, chapter, section, and source introductions, along with Questions for Analysis, help place each source into its larger historical context. Topical and geographic tables of contents in each volume allow professors flexibility in how they cover the material and assist students searching for paper topics.

This edition includes a **NEW Multiple Voices** feature that appears at the end of selected chapters and uses a variety of sources to illustrate different viewpoints on a common event or issue. Some of these topics include:

- The Healing Arts in China and Greece
- One Christianity or Many Christianities?
- Islam and Unbelievers
- The Slave Trade Debate: European, African, and American Perspectives
- The Loosening of Tradition: Feminist Voices in Egypt, Iran, China, and Japan
- The Decision to Drop the Atomic Bomb

The Medieval & Early Modern World Merry E. Wiesner, Merry E. Wiesner-Hanks, 2005-06-23 Cultural life flowered from the mid fifteenth century in the Italian city states many of which profited from the new trading opportunities that growing world networks permitted Contact among regions of the world expanded bringing new ideas and prompting an appreciation of arts and letters not only of the present but of the past In Italy this cultural flowering was known at first as the renaissance of arts and letters soon shortened to just Renaissance to accommodate cultural ingredients that came from beyond Europe Italian and northern European cultural expansion benefited from similar retrieval of ancient knowledge in the Islamic world and East Asia Like the Italians the Chinese had grown even wealthier from the extensive links to global commerce provided by the Mongol Empire but once thrown off their

cultural life flourished under the Ming Cultural knowledge and the arts spread across Asia and into Europe As part of state building the Ming nourished commerce but also rejected the cosmopolitan Buddhist legacy that arrived from central and south Asia To strengthen dynastic Chinese rule the Ming challenged Buddhism with a revival of age old concern for the Confucian values that had languished under the Mongols Foremost among these new Confucians was Wu Yube so expert in his teachings that he attracted a wide coterie of disciples In India Nanak an educated employee of an Afghan prince sparked the founding of Sikhism A similar search for reviving fundamental religious values occurred in Europe where Martin Luther challenged the practices of the Catholic church ushering in Protestantism Religious reform and resistance to it were closely connected to the state building efforts of enterprising monarchs such as Henry VIII of England India likewise experienced a fervent movement to revive pure ancient religious practices Fourteenth and fifteenth century global trade and long distance ventures such as those made by the Ming and then by the Portuguese further inspired and advanced these worldwide cultural and political developments A brisk Indian Ocean trade flourished Economic change ensued with the arrival of New World silver on the global market The advance of printing not only furthered the cause of religious reform and state building globally it also helped globalize knowledge and intellectual experimentation People of great power and those of more limited means came to live their lives differently because of this expanding web of shared knowledge and trade Cities flourished the enslavement of native Americans came to replace their use as human sacrifices and diseases migrated at a more rapid pace and greater devastation than perhaps ever before

The Human Network Matthew O. Jackson,2020-02-04 Here is a fresh intriguing and above all authoritative book about how our sometimes hidden positions in various social structures our human networks shape how we think and behave and inform our very outlook on life Inequality social immobility and political polarization are only a few crucial phenomena driven by the inevitability of social structures Social structures determine who has power and influence account for why people fail to assimilate basic facts and enlarge our understanding of patterns of contagion from the spread of disease to financial crises Despite their primary role in shaping our lives human networks are often overlooked when we try to account for our most important political and economic practices Matthew O Jackson brilliantly illuminates the complexity of the social networks in which we are often unwittingly positioned and aims to facilitate a deeper appreciation of why we are who we are Ranging across disciplines psychology behavioral economics sociology and business and rich with historical analogies and anecdotes *The Human Network* provides a galvanizing account of what can drive success or failure in life
