The Human Situation A Philosophical Anthropology:

The Human Situation Gerd Haeffner, 1989 A general nontechnical introduction to philosophical anthropology suitable for undergraduates Takes up the ever popular question of the meaning of life drawing on biological anthropological and philosophic resources We won't spoil it by revealing the answer but some of the topics are the correct approach to the question the dimensions and unity of existence the mental and physical aspects freedom of will and death Translated from the 1982 German edition Cloth edition 24 95 not seen by UPBN Annotation copyrighted by Book News Inc Portland OR

Routledge Revivals: Paul Tillich (1973) Alistair M. Macleod, 2017-09-29 First published in 1973 this is the first book on Paul Tillich in which a sustained attempt is made to sort out and evaluate the questions to which Tillich addresses himself in the crucial philosophical parts of his theological system It is argued that despite the apparent simplicity in his interest in the question of being Tillich in fact conceives of the ontological enterprise in a number of radically different ways in different contexts Much of Professor Macleod's work is devoted to the careful separation of these strands in his philosophical thought and to an exploration and assessment of the assumptions associated with them This book will be of interest to readers of Tillich and philosophers who specialise in ontology and linguistics

Myth and the Human Sciences Angus Nicholls, 2014-12-05 This is the first book length critical analysis in any language of Hans Blumenberg's theory of myth Blumenberg can be regarded as the most important German theorist of myth of the second half of the twentieth century and his *Work on Myth* 1979 has resonated across disciplines ranging from literary theory via philosophy religious studies and anthropology to the history and philosophy of science Nicholls introduces Anglophone readers to Blumenberg's biography and to his philosophical contexts He elucidates Blumenberg's theory of myth by relating it to three important developments in late nineteenth and early twentieth century German philosophy hermeneutics phenomenology and philosophical anthropology while also comparing Blumenberg's ideas with those of other prominent theorists of myth such as Vico Hume Schelling Max Müller Frazer Sorel Freud Cassirer Heidegger Horkheimer and Adorno According to Nicholls Blumenberg's theory of myth can only be understood in relation to the human sciences since it emerges from a speculative hypothesis concerning the emergence of the earliest human beings For Blumenberg myth was originally a cultural adaptation that constituted the human attempt to deal with anxieties concerning the threatening forces of nature by anthropomorphizing those forces into mythic images In the final two chapters Blumenberg's theory of myth is placed within the post war political context of West Germany Through a consideration of Blumenberg's exchanges with Carl Schmitt as well as by analysing unpublished correspondence and parts of the original *Work of Myth* manuscript that Blumenberg held back from publication Nicholls shows that Blumenberg's theory of myth also amounted to a reckoning with the legacy of National Socialism

The Politics of Agency Jeremy Wisniewski, 2008 Debates about individualism and holism reductionism and phenomenology and naturalism and humanism all turn on how we answer the basic questions about the nature of human agency This book argues that the traditional emphasis on the accuracy of a given theory of human agency has systematically obscured the normative dimension in these theories and that recognizing this normative dimension allows us to see that a pragmatic approach to theories of agency either in social science or moral philosophy is more appropriate As well as offering a vigorous presentation of the pragmatic therapeutic account of agency Wisniewski also engages critically with three rival accounts from Nietzsche Foucault and Rorty
