*Ecological Modernisation and Environmental Compliance* Shahpar Selim, 2013-02-01 Economic development that is environmentally socially and ethically sound is at the forefront of contemporary debates all over the world This is especially relevant to international trade where goods manufactured in least developed countries LDCs are being exported to developed

countries DCs via international supply chains This book looks at Bangladesh s ready made garments RMG industry the seventh largest in the world facing demands for environmental and social management according to standards set by consumers in environmentally progressive societies Apart from these concerns not having found cultural or institutional resonance in Bangladesh the pressures for cost reduction on time delivery and cheap labour in a highly competitive international market make the problem that much more complex In this book Selim uses the analytical framework provided by the ecological modernisation theory to examine the economic communicative and social political aspects of ethical trade and argues that the economy ecology relationship can indeed be a positive sum game if nation states and economic actors change their policymaking styles and greening behaviour to take advantage of scientific evidence and green technological opportunities      Board of Trade Journal ,1958
