and restoring lifestyle balance      Sleep Beatrice Hollyer, Lucy Smith, 2012-03-12 Many believe it is a matter of luck as to whether you are blessed with a baby who sleeps well or are landed with one who doesn't. It isn't. Beatrice Hollyer and Lucy Smith provide clear, sensible and effective advice on how to achieve peaceful, problem-free nights. In *Sleep*, from the first days of infancy throughout childhood, taking a cue from the baby and working with their natural instinct, this book puts parents in charge. Avoiding conflict over sleep, this approach builds trust, communication and confidence in your relationship with your baby. Instead of a one-size-fits-all approach, Hollyer and Smith offer guidelines that can be adapted for each particular parent and baby. By understanding her needs, reading and responding to her signals and following her lead, you can strongly reinforce your baby's natural tendency to adapt to sleeping all night. Although focusing on establishing good sleep habits from the start of life, the principles put forward in this book can also be used to solve a sleep problem in a child of any age, usually in less than a week.

**A Strange Period.** Sheryl Gurrentz, Cindy Singer, 2011-12-08 Surprising, funny and reassuring information about the subtle and not so subtle experiences that comprise the Journey from regular periods to anything but regular periods to the end of periods. **PERIOD WARNING:** This book is intended for hormonally challenged women only and may be offensive and/or downright appalling to younger or male audiences. **READ AT YOUR OWN RISK.** Could it be that the odd physical, mental, emotional and sexual experiences you have recently noticed are related to menopause, even if you feel like you can't possibly be old enough yet? They could be if you are in perimenopause, the time of hormonal fluctuation leading up to menopause. To put it bluntly, you know you are perimenopausal when: The only other viable alternatives are that you are pregnant, crazy, going through puberty again and/or have early dementia. You've had times when you can't figure out the right amount to tip, get lost in your own neighborhood or feel like you are an impostor in your own life. You can honestly use the saying, "not by the hair of my chinny chin chin." The phrase "I laughed so hard I almost wet my pants" turns into "I laughed so hard I wet my pants and you didn't laugh all that hard." You talk about your hairy a-hole and you're not referring to your husband. You've been looking for a good way to work, not so feminine itching and the proliferation of pubic hair in non-pubic places into polite conversation. You have at least once gotten so hot that you seriously considered completely stripping off every single piece of your clothing in a public place. Or you have 1/2 the energy but need 2 times the exercise to stay in shape, want sex 1/2 as much just when it takes your guy 2 times as long and have 1/2 the periods but they are 2 times as bothersome.
