Cohen,1998-02-02 Explores the legal issues that health care providers institutions and regulators confront as they

contemplate integrating complementary and alternative medicine into mainstream U S health care A third of all Americans use complementary and alternative medicine including chiropractic acupuncture homeopathy naturopathy nutritional and herbal treatments and massage therapy even when their insurance does not cover it and they have to pay for such treatments themselves Nearly a third of U S medical schools offer courses on complementary and alternative therapies Congress has created an Office of Alternative Medicine within the National Institutes of Health and federal and state lawmakers have introduced legislation authorizing widespread use of such therapies These institutional and legislative developments argues Michael H Cohen express a paradigm shift to a broader more inclusive vision of health care than conventional medicine admits Cohen explores the legal issues that health care providers both conventional and alternative institutions and regulators confront as they contemplate integrating complementary and alternative medicine into mainstream U S health care Challenging traditional ways of thinking about health disease and the role of law in regulating health Cohen begins by defining complementary and alternative medicine and then places the regulation of orthodox and alternative health care in historical context He next examines the legal ramifications of complementary and alternative medicine including state medical licensing laws legislative limitations on authorized practice malpractice liability food and drug laws professional disciplinary issues and third party reimbursement The final chapter provides a framework for thinking about the possible evolution of the regulatory structure This book is the first to set forth the emerging moral and legal authority on which the safe and effective practice of alternative health care can rest It further suggests how regulatory structures might develop to support a comprehensive holistic and balanced approach to health one that permits integration of orthodox medicine with complementary and alternative medicine while continuing to protect patients from fraudulent and dangerous treatments
