The Sphota Theory of Language Harold G. Coward, 1980 Study of some linguistic considerations in Sanskrit grammar and Hindu philosophy **Sphota theory of language** Harold G. Coward, 1900 The Sphota Theory of Language Harold G. Coward, 1986 **The Sphota Theory of Language** Harold G. Coward, 1980 **The Concept of Sentence and Meaning** Sarath P. Nath, 2025-03-19 Definition and sense of the meaning were a great concern for the Indian thinkers In order to finalize this they have examined all the components of a communicative unit such as syllables words sentences and intentions of the speakers After this examination different philosophers specifically M m sakas Naiy yikas and bdikas have arrived at the conclusion that sentence is an essential component to convey the sense of meaning to the listener The theory of akha av kya is based on the indivisible spho a theory and the sentence meaning is experienced by the concept of pratibh The division of sentence as per the priority of words occurred on the basis of mutual expectancy by which the intended meaning may be assumed by the listener The V kyapad ya of Bhart hari sixth century is a text which elaborately explains the notions on sentence The book systematically presents the philosophical dimensions of grammatical units The author has attempted to present the philosophy of language in a Bhart harian perspective To substantiate his views syntactic and semantic thoughts in India are elaborately discussed Though the significance of the work can only be understood by those scholars who are well versed in Hel r ja and Pu yar ja it will undoubtedly remain an asset to the field of grammatical deliberations Theory of Language Karl Bühler, 2011 Karl Buhler 1879 1963 was one of the leading theoreticians of language of the twentieth century This is an English translation of Buhler s theory that begins with a survey on Buhler s legacy for modern linguistics Werner Abraham followed by the Theory of Language and finally with a special Postscript Twenty five Years Later *The Emergence of Semantics in Four Linguistic Traditions* Wout Jac. van Bakkum, Jan Houben, Ineke Sluiter, Kees Versteegh, 1997-04-03 The aim of this study is a comparative analysis of the role of semantics in the linguistic theory of four grammatical traditions Sanskrit Hebrew Greek Arabic If one compares the organization of linguistic theory in various grammatical traditions it soon turns out that there are marked differences in the way they define the place of semantics within the theory In some traditions semantics is formally excluded from linguistic theory and linguists do not express any opinion as to the relationship between syntactic and semantic analysis In other traditions the whole basis of linguistic theory is semantically orientated and syntactic features are always analysed as correlates of a semantic structure However even in those traditions in which semantics falls explicitly or implicitly outside the scope of linguistics there may be factors forcing linguists to occupy themselves with the semantic dimension of language One important factor seems to be the presence of a corpus of revealed sacred texts the necessity to formulate hermeneutic rules for the interpretation of this corpus brings semantics in through the back door **Re-imagining South Asian Religions** , 2012-12-03 Re imagining South Asian Religions is a collection of essays offering new ways of understanding aspects of Hindu Tibetan Buddhist Sikh Jain

Theosophical and Indian Christian experiences Moving away from canonical texts established authorities and received historiography the essays in this volume draw from a range of methodological perspectives including philosophy history hermeneutics migration and diaspora studies ethnography performance studies lived religion approaches and aesthetics Reflecting a balance of theory and substantive content the papers in this volume call into question key critical terms challenge established frames of reference and offer innovative and alternative interpretations of South Asian ways of knowing and being
