Spinning Around:

The Bar with Antler Chandeliers Harris T. Wood, 2016-06-19 You might as well be hanging testicles from the ceiling because those poor boys never stood a chance The minute they became men they took a step into the sights of a hunter's rifle Reeves says the bartender You're shitfaced again get the hell out of here The Bar with Antler Chandeliers is the ensemble portrait of modern day East Hollywood that literature has been missing All essential Los Angeles underbelly are accounted for as they struggle with the predestination written into their lives Wood's reciprocity with the world he's created is evident in its detail from the starry eyes of the failed actresses the grimy Midwestern druggies and the futureless gaze of the barflies where everything is rife with predation and laced with the language of the apocalypse The world is always ending one way or another isn't it *Spin* Clive Veroni, 2014-08-02 Spin has been updated with a new introduction reflecting on the current era

of Brexit and Trump Aided by masses of data sophisticated computer modelling and smart manipulation of social media political strategists are reshaping the way voters think And act Clive Veroni analyzes the inner workings of campaign organizations to show how they build and motivate teams and how they approach strategic and future planning And those strategies being used to influence our choices at the ballot box will soon be used to influence our choices in the grocery store Spin focuses on the well known characters from the worlds of politics and marketing to reveal how all of us will be affected by the surprising new ways in which companies and politicians will try to persuade us to vote for their brands Selected Poems by B. The Key That Unlocked a Mystery Mark Hogan, 2012-01-20 In the rolling green hills of Ireland in a beautiful country village there was a loving Irish family of 3 girls and 2 boys The younger of the 2 boys was Mark Although Mark seemed normal to his family he was just a little more difficult to reason with Autism spectrum disorder was hardly heard of and very rare not many people would have spoken about it known about it or even understood it and Aspergers certainly was not even a word back then in the early 80s Mark went to a mainstream Catholic primary school along with his brother and sisters in a little village in the Irish countryside Little do his parents know Mark had a very difficult time in school but he always kept that to himself He struggled with the everyday things that we all take for granted Yes he could talk and was very verbal but could only talk about his special interests That's when he seemed normal and a good conversationalist and sometimes you would even really like him But when the subject was changed or another person joined the conversation that's when you realize he was different Mark was unable to follow what was happening and become nonverbal and quickly other kids would notice this and when asked of his thoughts on what they were talking about they were left with a blank stare This is where Mark came unstuck and would have no idea what was going on and that's when others would begin to make fun of him Mark preferred to be alone but there is no escape in a small country village where every one knows your business This exciting book reveals how Mark overcomes the struggles of his childhood and his teenage years and the many different careers he slogged through to become the fine young married man and father of two he is today His insight into autism spectrum disorder is phenomenal and this is a must read book for those trying to comprehend the disabling nature of this syndrome Mark reveals how he got diagnosed with Aspergers at the age of 31 after the birth of his first child who was diagnosed with Autism For Mark this was the key that unlocked the mystery of why he struggled to fit in all of his life
