Spirit Of Angkor:

Spirit of Angkor Dean Armstrong, 2002 *Heritage and Tourism* Russell Staiff, Robyn Bushell, Steve Watson, 2013-06-26

The complex relationship between heritage places and people in the broadest sense can be considered dialogic a communicative act that has implications for both sides of the conversation This is the starting point for *Heritage and Tourism* However the dialogue between visitors and heritage sites is complex Visitors have for many decades become synonymous with tourists and the tourism industry and so the dialogic relationship between heritage place and tourists has produced a powerful critique of this often contested relationship Further at the heart of the dialogic relationship between heritage places and people is the individual experience of heritage where generalities give way to particularities of geography place and culture where anxieties about the past and the future mark heritage places as sites of contestation sites of silences sites rendered political and ideological sites powerfully intertwined with representation sites of the imaginary and the imagined Under the aegis of the term dialogues the heritage tourism interaction is reconsidered in ways that encourage reflection about the various communicative acts between heritage places and their visitors and the ways these are currently theorized so as to either step beyond where possible the ontological distinctions between heritage places and tourists or to re imagine the dialogue or both *Heritage and Tourism* is thus an important contribution to understanding the complex relationship between heritage and tourism

Spirits of the Place John Clifford Holt, 2009-07-29 *Spirits of the Place* is a rare and timely contribution to our understanding of religious culture in Laos and Southeast Asia Most often studied as a part of Thai Vietnamese or Khmer history Laos remains a terra incognita to most Westerners and to many of the people living throughout Asia as well John Holt s new book brings this fascinating nation into focus With its overview of Lao Buddhism and analysis of how shifting political power from royalty to democracy to communism has impacted Lao religious culture the book offers an integrated account of the entwined political and religious history of Laos from the fourteenth century to the contemporary era Holt advances the provocative argument that common Lao knowledge of important aspects of Theravada Buddhist thought and practice has been heavily conditioned by an indigenous religious culture dominated by the veneration of phi spirits whose powers are thought to prevail over and within specific social and geographical domains The enduring influence of traditional spirit cults in Lao culture and society has brought about major changes in how the figure of the Buddha and the powers associated with Buddhist temples and reliquaries indeed how all ritual spaces and times have been understood by the Lao Despite vigorous attempts by Buddhist royalty French rationalists and most recently by communist ideologues to eliminate the worship of phi spirit cults have not been displaced they continue to persist and show no signs of abating Not only have the spirits resisted eradication but they have withstood synthesis subordination and transformation by

Buddhist political and ecclesiastical powers Rather than reduce Buddhist religious culture to a set of simple commonalities Holt takes a comparative approach using his nearly thirty years experience with Sri Lanka to elucidate what is unique about Lao Buddhism This stimulating book invites students in the fields of the history of religion and Buddhist and Southeast Asian studies to take a fresh look at prevailing assumptions and perhaps reconsider the place of Buddhism in Laos and Southeast Asia
