David Macey Jr., 2019-11-15 This essential volume provides an overview of and introduction to African American writers and literary periods from their beginnings through the 21st century This compact encyclopedia aimed at students selects the most important authors literary movements and key topics for them to know Entries cover the most influential and highly regarded African American writers including novelists playwrights poets and nonfiction writers The book covers key periods of African American literature such as the Harlem Renaissance the Black Arts Movement and the Civil Rights Era and touches on the influence of the vernacular including blues and hip hop The volume provides historical context for critical viewpoints including feminism social class and racial politics Entries are organized A to Z and provide biographies that focus on the contributions of key literary figures as well as overviews background information and definitions for key subjects **Lenard D. Moore and African American Haiku** Ce Rosenow, 2022-07-26 Lenard D Moore and African American Haiku Merging Traditions identifies Moore as a primary figure in the American Haiku Movement as well as a significant contributor to the field of African American haiku Ce Rosenow analyzes the ways in which Moore combines haiku with a variety of other traditions African American storytelling jazz poetry ekphrasis and elegies An examination of Moore s haibun a Japanese form combining prose and haiku reveals the further development of the African American aesthetic created in his individual poems Ultimately the author argues that Moore s decades long engagement with haiku and his prolific publication history solidify haiku as an established form in African American poetry New Thoughts on the Black Arts Movement Lisa Gail Collins, Margo Natalie Crawford, 2006-05-16 During the 1960s and 1970s a cadre of poets playwrights visual artists musicians and other visionaries came together to create a renaissance in African American literature and art This charged chapter in the history of African American culture which came to be known as the Black Arts Movement has remained largely neglected by subsequent generations of critics New Thoughts on the Black Arts Movement includes essays that reexamine well known figures such as Amiri Baraka Larry Neal Gwendolyn Brooks Sonia Sanchez Betye Saar Jeff Donaldson and Haki Madhubuti In addition the anthology expands the scope of the movement by offering essays that explore the racial and sexual politics of the era links with other period cultural movements the arts in prison the role of Black colleges and universities gender politics and the rise of feminism color

fetishism photography music and more An invigorating look at a movement that has long begged for reexamination this collection lucidly interprets the complex debates that surround this tumultuous era and demonstrates that the celebration of this movement need not be separated from its critique **African American Autobiographers** Emmanuel S. Nelson, 2002-03-30 There is growing popular and scholarly interest in autobiography along with increasing regard for the achievements of African American writers The first reference of its kind this volume chronicles the autobiographical tradition in African American literature Included are alphabetically arranged entries for 66 African American authors who present autobiographical material in their works The volume profiles major figures such as Frederick Douglass Zora Neale Hurston Richard Wright Maya Angelou James Baldwin and Malcolm X along with many lesser known autobiographers who deserve greater attention While some are known primarily for their literary accomplishments others have gained acclaim for their diverse contributions to society The entries are written by expert contributors and provide authoritative information about their subjects Each begins with a concise biography which summarizes the life and achievements of the autobiographer This is followed by a discussion of major autobiographical works and themes along with an overview of the autobiographer s critical reception The entries close with primary and secondary bibliographies and a selected general bibliography concludes the volume Together the entries provide a detailed portrait of the African American autobiographical tradition from the 18th century to the present Hip Hop's Inheritance Reiland Rabaka, 2011-01-01 Hip Hop s Inheritance arguably offers the first book length treatment of what hip hop culture has literally inherited from the Harlem Renaissance the Black Arts movement the Feminist Art movement and 1980s and 1990s postmodern aesthetics By comparing and contrasting the major motifs of the aforementioned cultural aesthetic traditions with those of hip hop culture all the while critically exploring the origins and evolution of black popular culture from antebellum America through to Obama s America Hip Hop s Inheritance demonstrates that the hip hop generation is not the first generation of young black and white folk preoccupied with spirituality and sexuality race and religion entertainment and athletics or ghetto culture and bourgeois culture Taking interdisciplinarity and intersectionality seriously Hip Hop s Inheritance employs the epistemologies and methodologies from a wide range of academic and organic intellectual activist communities in its efforts to advance an intellectual history and critical theory of hip hop culture Drawing from academic and organic intellectual activist communities as diverse as African American studies and women s studies postcolonial studies and sexuality studies history and philosophy politics and economics and sociology and ethnomusicology Hip Hop s Inheritance calls into question one dimensional and monodisciplinary interpretations or rather misinterpretations of a multidimensional and multivalent form of popular culture that has increasingly come to include cultural criticism social commentary and political analysis Spirit and Flame Keith Gilyard, 1997 Celebrating the creativity of the African American poet this volume contains over 200 pieces by some of the best poets of the last decade These span the entire range of African American experience in tanka and sonnets in the oral
