fulfill your potential Order your copy today and embark on a journey of discovery growth and transformation *Finding God in the Singing River* Mark I. Wallace,2005-03-04 We live in an age of vast and rapid destruction of habitats and species Yet Christianity holds great potential for healing this situation Indeed the Bible and Christian tradition are a treasure trove of rich images and stories about God as an earthen being who sustains the natural world with compassion and thereby models for humankind environmentally healthy ways of being Mark Wallace s stimulating book retrieves a central but often neglected biblical theme the idea of God as carnal Spirit who indwells all things as the basis for constructing a green spirituality responsive to the environmental needs of our time In the biblical tradition he writes God as Spirit is an ecological presence that shows itself to us daily by living in and through the earth One message of Christianity therefore is celebration of the bodily material world ancient redwoods vernal springs broad winged hawks everyday pigweed as the place that God indwells and cares for in order to maintain the well being of our common planetary home Alongside his green reading of the Bible and tradition Wallace employs the resources of deep ecology Neopagan spirituality and the environmental justice movement to rethink Christianity as an earth based body loving religion He also analyzes color images reproduced in the book Wallace s bold yet careful work reawakens our sense of the sacrality of the earth and the life that the trinitarian God creates there It also grounds the impulses of New Age spirituality in a profoundly biblical notion of God s being and activity

The Spirit of the English Language John Wulsin,2008-09 Selections from the Works of Rudolf Steiner Without the spiritualist movement and the amazing personality of Helena Petrovna Blavatsky the creator of the Theosophical Society the spiritual revolution of the twentieth century the so called New Age with all its movers and shakers would be unimaginable And the work of Rudolf Steiner G I Gurdjieff Ren Gu non Hazrat Inayat Khan Sri Aurobindo R A Schwaller de Lubicz and C G Jung could not have become what it was In this fascinating volume on the Theosophical movement Rudolf Steiner one of its primary participants tells his story in his own words We are told of the origins of the theosophical movement in spiritualism and somnambulism We are given Steiner s own version of the relationship between Anthroposophy and Theosophy through his White Lotus Day Lectures given over several years on the anniversary of Madame Blavatsky s death Steiner then moves into the realm of occult history where he relates Theosophy to its historical ground in Western esotericism especially Rosicrucianism He reveals events from the seventeenth century that led to the emergence of Freemasonry and other secret societies as well as the hidden history of the creation of Theosophy in the nineteenth century and the conflicts that still reverberate today between the Anglo Saxon and Germanic occult streams **Life in the Spirit** Douglas Finn,2015-12-31 Since the nineteenth century many philosophical and theological commentators have sought to trace lines of continuity between the Trinitarian thought of Augustine of Hippo 354 430 and G W F Hegel 1770 1831 Many contemporary Christian theologians have also criticized Augustine s Trinitarian theology generally and his doctrine of the Holy Spirit more specifically through this historical lens At the same time Hegelian Trinitarian conceptual dynamics have come to exert a

strong influence over contemporary Trinitarian theology In *Life in the Spirit* Douglas Finn seeks to redress several imbalances with respect to Augustine imbalances that have one of their hermeneutic causes in a Hegelian influenced theological tradition Finn argues that common readings of Augustine focus too much on his *De Trinitate* books 8-15 betraying a modern and to some extent Hegelian prejudice against considering sermons and biblical commentaries serious theological work This broadening of Augustinian texts allows Finn to critique readings of Augustine that on the one hand narrow his Trinitarian theology to the so called psychological analogy and thus chart him on a path to Descartes and Hegel or on the other hand suggest he sacrifices a theology of the Trinitarian persons on the altar of divine substance Augustine's Trinitarian theology on Finn's reading is one fully engaged with God's work in history With this renewed understanding of Augustine's Trinitarianism Finn allows Augustine to interrogate Hegel with his concerns rather than only the other way around In this ambitious study Finn shows that Hegel's rendition of Christianity systematically obviates whole swaths of Christian prayer and practice He does this nonpolemically carefully and with meticulous attention to the texts of both great thinkers
