Spiritual Healing A Practical Guide To Hands On Healing:

Spiritual Healing Jack Angelo, Jan Angelo, 2002 The authors present 30 exercises based on the human body's natural energy fields. The various techniques explained in this book are specifically intended to alleviate physical pain, heal many ailments, and bring comfort to the terminally ill. As preparation for the exercises, readers are instructed in both the history and theory of spiritual healing. They go on to learn methods intended to awaken their own healing powers, energize working and living spaces, locate the body's chakras, and even sense beneficial energy fields surrounding animals and plants. The authors' aims are to offer a celebration of all spiritual aspects of the human journey from birth to death. Their book presents an accessible approach to a popular method of personal development that focuses on both the body and the spirit, a holistic approach to healing. Approximately 180 color illustrations help readers visualize and activate the energy fields that surround us all.

Spiritual Healing Jack Angelo, 2003-03 This text examines the beauty of the human energy field and the flow of subtle energies during healing and life experiences. It introduces the history of healing through a clear account of the energetic processes involved, to instruction and explanation of a comprehensive method of healing. The text also allows the reader to discover the holistic nature of spiritual healing. A number of exercises are offered to enable the reader to awaken their healing powers and include how to sense etheric around others, sensing hand energies, energizing working and living spaces, locating the chakras, sensing the energy of animals and plants, protection of the healer, the energy field of pregnancy, working with the terminally ill, and distance healing.
