While the field of management has developed as a research discipline over the last century until the early 1990s there was essentially no acknowledgement that the human spirit plays an important role in the workplace Over the past twenty years the tide has begun to turn as evidenced by the growing number of courses in academia and in corporate training and an exponential increase in the publications emerging through creative interaction of scholars and practitioners in organizational behaviour workplace diversity sustainability innovation corporate governance leadership and corporate wellness as well as contributions by psychotherapists theologians anthropologists educators philosophers and artists This Handbook is the most comprehensive collection to date of essays by the preeminent researchers and practitioners in faith and spirituality in the workplace featuring not only the most current research and case examples but visions of what will be or should be emerging over the horizon It includes essays by the people who helped to pioneer the field as well as essays by up and coming young scholars Among the questions and issues addressed What does it mean to be a spiritual organization How does this perspective challenge traditional approaches to the firm as a purely rational profit maximizing enterprise Is faith and spirituality in the workplace a passing fad or is there a substantial shift occurring in the business paradigm How does this field inform emerging management disciplines such as sustainability diversity and social responsibility In what ways are faith and spirituality in the workplace similar to progressive and innovative human resource practices Does faith and spirituality in the workplace bring something additional to the conversation and if so what The aim of The Handbook of Faith and Spirituality in the Workplace is to provide researchers faculty students and practitioners with a broad overview of the field

from a research perspective while keeping an eye on building a bridge between scholarship and practice Spirituality in the Workplace Joan Marques, Satinder Dhiman, Richard King, 2007 Provides the tools to make your work experience a gratifying one A common misconception equates workplace spirituality with religion in the workplace this sets the record straight providing a practical definition of spirit at work and explaining its benefits for employees managers the organization the societies in which the organization operates and the world at large Whether you are a leader a manager or an employee who cares about the people and the place you surround yourself with you ll find the broad focus presented here useful for improving your work and your life From publisher description **Fostering Spirituality in the Workplace** Priscilla Berry, 2013-05-28 Today there are deep and rapid changes on companies employees and the global economy that should not be underestimated and future world leaders must be prepared to lead in a manner that is socially responsible ethical and pro_ table A corporation with a business model that polarizes or operates solely in the interest of its shareholders is unsustainable and current benchmarks can be unrealistic tools for businesses to rely upon as measures of future success This book explores historical data analyzes current events from the world stage and delivers a worldview that challenges some existing paradigms in business As we are living business history the book draws from the epic economic environmental and cultural shifts in our collective consciousness It begins a vital conversation by introducing some thought paradigms that will challenge current business practices create a vision for the future and provide a road map to navigate this uncharted territory In the end the author outlines specific action that you must take now to end the economic and moral decline in this first part of the 21st century **The Spirituality of Work and Leadership** Paul Gibbons, 2020-10-24 This is a book for people who want to understand how spiritual ideas can help humanize business Within Paul Gibbons a founder of the workplace spirituality movement twenty years ago suggests that spirituality touches on every aspect of the human experience at work on every aspect of human capital and on the purpose of business and the capitalist economic system In Meaning Joy and Purpose he explores how we can recruit spiritual ideas to help humans find greater meaning and purpose in their work and to improve business practices that is to make business more human The first volume covers individual level topics only meaning work workaholism vocation and purpose happiness mindfulness altruism motivation engagement and leadership The second volume tentatively called Culture Capitalism Sustainability turns first to talent employer brand ethics service culture values and profitability Then it turns to 21st century capitalism with its great triumphs and some of its limitations exploring how spirituality might help us create a more human centered version of capitalism more fit for the 21st century To that discussion Gibbons brings two decades of scholarship in philosophy psychology and spirituality and four decades in business from the perspective of an investment banker consultant and adjunct professor of business I also bring my perspective as former CEO of a start up founded to bring spiritual principles to development of senior business leaders and their teams Here are the questions Gibbons tackles in Volume I What do we mean by spirituality How is it different from religion What is

the relationship between religion and science Is the world becoming more or less spiritual What is the historical relationship between spirituality and work Where does that leave us today Can we prove workplace spirituality is of value What is the evidence What are the benefits of private prayer or meditation at work What insight does spirituality give us into human motivation What is the purpose of purpose How do we create purposeful lives and organizations What is the link between leadership and spirituality Can spiritual experiences at work be cultivated What would a spiritual consulting firm look like

Working With Spirit Lucy Reid,Fred Evers,2004-08-01 How does spirituality relate to our everyday working lives Can the challenges of work stress burnout time famine and conflict be addressed by our beliefs and spiritual practices Lucy Reid and Fred Evers argue that spirituality in the workplace is neither a strategy to placate unhappy workers nor an invasion by religious agenda It is instead the pursuit of meaning and integrity the attentiveness to deep questions and the unleashing of creativity by which our work is transformed and sanctified Written from the perspective of a priest and a sociologist Working With Spirit deals on the personal corporate and societal levels It suggests ways to heal working relationships and integrate spiritual truths It includes a compendium of resources to provide practical ways of engaging spirituality to meet challenges in the workplace today

Spirituality in the Workplace: A Philosophical and Social Justice Perspective Marilyn Y. Byrd,2017-01-11 Missing from the discourse on spirituality are the injustices experienced in the workplace particularly by individuals marginalized by social group identity or affiliation This is a critical omission in that spirituality can stimulate reflection response healing and transformation of the soul Filling the gap by addressing the role of spirituality in relation to meaningful work this volume extends ideas about teaching and learning about spirituality to workplace settings including the transformative learning theory In seeking ways to promote moral and socially responsible workplaces and to establish a new way of thinking the volume lays down a philosophical framework for spirituality in the workplace as a means of emancipation and social justice and shows how the workplace can be a fruitful context for social justice education This is the 152nd volume of the Jossey Bass series New Directions for Adult and Continuing Education Noted for its depth of coverage it explores issues of common interest to instructors administrators counselors and policymakers in a broad range of education settings such as colleges and universities extension programs businesses libraries and museums
