The Dark Bureau:

The Dark Bureau Ernest Dudley, 2003-01-01 For many years rumours concerning the activities of an international criminal gang with a chain of contacts in every large European city had been noted at Scotland Yard Then the rumours assumed the shape of fantastic facts as the exploits of the gang became ever more outrageous and daring From wide scale dope running to blackmail and spying and counter spying for who paid most to white slave traffic all came within the limitless scope of this amazing organisation At Scotland Yard a special international department the E Bureau is set up to discover the mastermind behind the organisation It quickly becomes dubbed the Dark Bureau named after its charismatic and dynamic Chief Algy Dark Although from time to time various agents and smaller fry are run to earth they are terrified to reveal any information that might uncover the fabulous crime colossus behind everything the grotesque and sinister man known only as The Butterfly Then the Butterfly s operations extend to London and the fat really hits the fire with the disappearance and kidnapping of Tod Archer the presenter of a hard hitting television show exposing criminals and the one man likely to uncover the secrets of the Butterfly Ernest Dudley the BBC Armchair Detective and creator of the famous Doctor Morelle series is at the top of his form with this exciting novel of sensational murder and intrigue *Hunted in the Dark: Fae Bureau of Investigation, Book 2* Scarlett West, 2023-10-05 He s my boss my fated mate and my mortal enemy I m fire Damien s ice Our rival Fae clans hold a deepening grudge that could lead to war I shouldn t fall for him but he s breaking down my walls touching my heart Yet learning to trust him has never been more brutal Since being promoted as a Special Agent a dark force has shrouded the Winter Court and kidnappings of Fae people have become rampant To make matters worse someone killed our King And Damien is a prime suspect With a murderer on the loose I m facing the worst battle learn to trust Damien or face Earth and Faery s destruction *Hunted in the Dark* is book two out of five Start reading this scorching urban fantasy romance today **Report of the Bureau of Mines** Ontario. Bureau of Mines, 1899 **Democracy in the Dark** Frederick A. O. Schwarz, 2012-05-29 A timely and provocative book exploring the origins of the national security state and the urgent challenge of reining it in The Washington Post From Dick Cheney s man sized safe to the National Security Agency s massive intelligence gathering secrecy has too often captured the American government s modus operandi better than the ideals of the Constitution In this important book Frederick A O Schwarz Jr who was chief counsel to the US Church Committee on Intelligence which uncovered the FBI s effort to push Martin Luther King Jr to commit suicide the CIA s enlistment of the Mafia to try to kill Fidel Castro and the NSA s thirty year program to get copies of all telegrams leaving the United States uses examples ranging from the dropping of the first atomic bomb and the Cuban Missile Crisis to Iran Contra and 9 11 to illuminate this central question How much secrecy does good governance require Schwarz argues that while some control of information is necessary governments tend to fall prey to a culture of secrecy that is ultimately not just hazardous to democracy but antithetical to it This history provides the essential context to recent cases from Chelsea Manning to Edward

Snowden Democracy in the Dark is a natural companion to Schwarz's *Unchecked and Unbalanced* cowritten with Aziz Huq which plumbed the power of the executive branch a power that often depends on and derives from the use of secrecy An important new book Carefully researched engagingly written stories of government secrecy gone amiss *The American Prospect* [The Dark Side of News Fixing](#) Syed Irfan Ashraf,2021-11-02 This book provides a local journalist's perspective on a four decade long regional contribution to global news production It shows how the fixers risky news pursuits made possible for global media to access distant regions and dangerous caves on Pakistan and Afghanistan borders causing unprecedented deaths of the local reporters in the context of the U S led war on terror The book analyzes the fixer as a role in its relationship with militarization It is not a coincidence that fixers become valuable to commercial media only during the height of violence or crises Emerging under conditions of scarcity or war the value of this role in turn is intrinsically tied to the fear of extinction It is this vulnerability or perceived expendability imposed by the need to find work that binds fixers in a symbiotic relationship with global market and global war This book then serves as a vantage point from which one can clearly see the connection between the regional wars and commercial media as well as local journalists transformation into daily wage earners in a global media shift toward neoliberalism *The Dark Side* Young Park,2012 The history of the United States is the history of people who migrated to America from all parts of the world As a result American society is composed of many unique cultures and races Unfortunately the uniqueness of these cultures is one of the underlying causes of tension and conflict in America resulting in racism religious intolerance and class warfare In spite of this the multi racial nature of American society is an integral part of America's strength as a nation Thousands of immigrants from unique cultures who speak totally different languages came to find a better life in America But they were never accepted by the dominate white Christians The immigrants had to fight for the right to be in America Racism race riots and genocide are integral parts of the lives of immigrants The racial complexion of America is changing in the twenty first century In a short time the non white population will be the majority Social economic and political changes are already taking place Unfortunately the dominate power holders and white middle classes have not adjusted to these changes The unique system of government and economics developed over the years has reached a point that many believe will end the American Empire There is a certain bias in this presentation and criticism is aimed at the extreme beliefs and actions of a large segment of Americans particularly white Christians They have been the dominant political social and economic forces in the country Any assessment of the American system becomes a criticism of that segment of Americans Their beliefs and actions represent the Dark Side of America

Bulletin - Bureau of Chemistry United States. Bureau of Chemistry,1908 [The Dark Corners of the Lindbergh Kidnapping](#) Michael Melsky,2021-09-20 This volume of *The Dark Corners* is not unlike the previous three As with the others you will find information here not found anywhere else This volume is slightly different though with much attention given to what I consider leftovers and loose ends I have also addressed some additional aspects of the Lindbergh kidnapping in which

many have expressed interest This includes a chapter on the spy Jacob Nosovitsky and one on Violet Sharp a topic that I have avoided until now **A Shot in the Dark: A History of the U.S. Army Asymmetric Warfare Group** Paul J.

Cook,2024-05-14 This book presents the U S Army Asymmetric Warfare Group AWG as an example of successful change by the Army in wartime It argues that creating the AWG required senior leaders to create a vision differing from the Army s self conceptualization change bureaucratic processes to turn the vision into an actual unit and then place the new unit in the hands of uniquely qualified leaders to build and sustain it In doing this it considers the forces influencing change within the Army and argues the two most significant are its self conceptualization and institutional bureaucracy The work explores three major subject areas that provide historical context The first is the Army s institutional history from the early 1950s through 2001 This period begins with the Army seeking to validate its place in America s national security strategy and ends with the Army trying to chart a path into the post Cold War future The Army s history is largely one of asymmetric warfare The work thus examines several campaigns that offered lessons for subsequent wars Some lessons the Army took to heart others it ignored As the AWG was a direct outgrowth of the failures and frustrations the Army experienced in Afghanistan and Iraq the book examines these campaigns and identifies the specific problems that led senior Army leaders to create the AWG Finally the work chronicles the AWG s creation in 2006 growth and re assignment from the Army staff to a fully fledged organization subordinate to the U S Army Training and Doctrine Command in 2011 to its deactivation This action resulted not from the unit s failure to adapt to a post insurgency Army focusing on modernization Rather it resulted from the Army failing to realize that while the AWG was a product of counterinsurgency it provided the capability to support the Army during a period of great strategic and institutional uncertainty **Out of the Dark** Steve Rasnic Tem,2018-02-25 Steve

Rasnic Tem once said his writing was filtered through a different lens to view the world With a style all his own Tem has galvanized and thrilled fans of weird fiction worldwide His efforts have earned him the Bram Stoker World Fantasy and British Fantasy Awards His m tier is the monstrous secret the unsettling darkness hidden within all of us Bedtime Story opens with a line that defines Tem s style I don t know why bad things happen There s never a good reason They just do The story introduces us to a nightmare conjured from the mind of a child preparing to victimize her own father The Unmasking takes us into the tortured psyche of a horribly deformed recluse obsessed with the intricacies of human skin Outside one of several homages to the great H P Lovecraft melds Tem s uniquely poetic style with the cosmic horror created by that twisted gentleman from Providence The Masque of Edgar Allan Poe focuses on Tem s fondness for mask imagery and how the veneer we wear on the surface can become immobile consuming our souls The Doll Thief is a deeply disturbing exercise in pathos perversion and psychosis In Pulled Down to Sleep a man fights to remain awake knowing that sleep will doom him to a life of unspeakable nightmares Worms is a frightening tale of vengeance that will literally leave your skin crawling With Mother Hag Tem gives us a grim fairy tale about monstrous motherly love courtesy of a grotesque carnivorous witch
