The Destiny Of Germans In St Ivan And Other Writings:

The Destiny of Germans in St. Ivan and Other Writings Rajko Igic, 2002 In the Balkans generations live between wars The winds of war play havoc with the destinies of individuals peoples and nations scattering them across the world Only during periods of calm and when they have settled down some able diligent and wise manage to grasp the chance to fulfill their childhood dreams a warm family circle they had been deprived of or a career of a distinguished scientist The fragmented memoir that we are reading restrained in words but rich in feelings and intimations leads along lanes in which a village boy from Pannonian Plains curiously seeks knowledge about the world and becomes a citizen of the New World with encyclopedic view pondering the paradoxes of modern life and the destiny of coming generations The compassion he feels for the suffering of others the ease with which he writes and the unfinished mosaic of life make this book interactive Thus the reader can easily identify with the story and is almost tempted to add his own chapter based on personal experience

The Symbolist Movement in the Literature of European Languages Anna Balakian, 1984-01-01 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today
