WHAT IS SPEECH & LANGUAGE?

WHO CAN HELP (WHAT IS A SPEECH-LANGUAGE PATHOLOGIST?)

Speech-Language Pathologists (SLPs) can help! SLPs are all master's-level educated individuals working to help children & adults improve communication. SLPs provide a variety of coursework & clinical placements prior to becoming SLPs.

SLPs are licensed both by the state in which they practice & the American Speech-Language-Hearing Association (ASHA).

SLPs work with individuals of varying needs & diagnoses in the areas of articulation, expressive and pragmatic language, articulation and phonology, fluency, voice, feeding and swallowing.

SLPs typically work in clinics, schools, hospitals, or nursing homes.

HOW TO ENCOURAGE SPEECH & LANGUAGE

Communicative temptations: create situations where a child needs to gesture, vocalize, or verbalize to have his or her needs met before giving desired object (e.g., bubble piece)

Imitations: Having a child imitate you helps him or her to produce words & sounds at appropriate times (e.g., saying "hi" to animal howl as you take them out of the box)

Expanding: using a child's language and expanding it to make it more complex (e.g., child says "ball," adult can say "that is your ball")

Build vocabulary: target and engage relevant new words (e.g., seasonal words) to help build vocabulary

Read aloud: emphasize & reinforce new words, ask questions about the story while reading, ask child to retell the story (if age appropriate)

Ask questions: posing questions about daily activities are a great way to encourage language skills, including naming & understanding functions.

Narrate everything: modeling your own speech and language can increase exposure to correct production & enhance a child's abilities.
