The History Of Ideas A Biographical Introduction:

Aldous Huxley Between East and West C. C. Barfoot, 2001 Although the title of this volume is Aldous Huxley between East and West the order of the articles found within goes from West to East which naturally imitates Huxley's own progress especially since he went to the trouble of stepping out as far West as possible before starting for the East Indeed one could argue that he was already on his way there before he left for California a continuous journey perhaps since from the Californian shores of the Pacific the East is the further West After the Introduction which places Huxley between East and West the book starts with a consideration of Huxley's family connections then goes onto his earliest fictions his interest in science and the issue of modernity and his experiments with drama and their inherent philosophical concerns The poetry with which he began his writing career is then viewed as a link between his earlier Western self and his later Oriental interests suggesting that the latter was always inherent in the former A number of considerations of the Utopian themes in Huxley's middle and later fiction leads the volume to a climax with four articles surveying the foibles and the wisdom of Huxley's encounter with Eastern religious thought and philosophy his misunderstandings as well as ours of what actually he had learned and wished to pass on to the Western world Adam Ferguson: History, Progress and Human Nature Eugene Heath, Vincenzo Merolle, 2015-09-30 Unique among the leading figures of the Scottish Enlightenment Ferguson saw two eighteenth century revolutions the American and the French This monograph contains essays that range across all of Ferguson's works to investigate his engagement with contemporary events and his contributions to our understanding of history and human action *Writing Biography* Lloyd E. Ambrosius, 2004-01-01 The historian as biographer must resolve questions that reflect the dual challenge of telling history and telling lives How does the biographer sort out the individual's role within the larger historical context How do biographical studies relate to other forms of history Should historians use different approaches to biography depending on the cultures of their subjects What are the appropriate primary sources and techniques that scholars should use in writing biographies in their respective fields In *Writing Biography* six prominent historians address these issues and reflect on their varied experiences and divergent perspectives as biographers Shirley A Leckie examines the psychological and personal connections between biographer and subject R Keith Schoppa considers the pervasive effect of culture on the recognition of individuality and the presentation of a life Retha M Warnicke explores past context and modern cultural biases in writing the biographies of Tudor women John Milton Cooper Jr discusses the challenges of writing modern biographies and the interplay of the biographer's own experiences Nell Irvin Painter looks at the process of reconstructing a life when written documents are scant and Robert J Richards investigates the intimate relationship between life experiences and new ideas Despite their broad range of perspectives all six scholars agree on two central points biography and historical analysis are inextricably linked and biographical studies offer an important tool for analyzing historical questions **P. Papinius Statius, Silvae Book II** Harm-Jan Van Dam, 1984 Includes Latin text of Silvae

book II *Silvae Book II* P. Papinius Statius, 2018-07-17 The five books of the *Silvae* bring together the occasional verses which Statius wrote in addition to his two epics In these short descriptive poems Statius elaborates features taken from various genres into an original whole in which description and eulogy play important roles The main themes of the poems of his second book are consolation after bereavement and the contrast between nature and culture The present work contains a general introduction a text of *Silvae II* a bibliography and an index together with a verse by verse commentary on the poems of this second book This is the first commentary on a book of the *Silvae* since Vollmer's commentary on the whole of the *Silvae* of 1898 Emphasis is here placed on interpretation and moreover chiefly on the literary and stylistic aspects of the poems which compared with the epic poetry of Statius and his contemporaries have hitherto received relatively little attention **Biography and Poetical Remains of the Late Margaret Miller Davidson** Margaret Miller Davidson, Washington Irving, 1845 **Maurice Dobb** T. Shenk, 2013-12-17 This book explores the life of the man whom even his critics acknowledged was one of the world's most significant Communist economists From his outpost at the University of Cambridge where he was a protégé of John Maynard Keynes and mentor to students Dobb made himself into one of British communism's premier intellectuals *Bibliography of the History of Medicine* , **Biography and Poetical Remains of the Late Margaret Miller Davidson** Margaret Miller Davidson, 1843 **Biography and Poetical Remains of the Late Margaret Miller Davidson ... A New Edition, Revised** Washington Irving, 1855
