**The History of the Cavalcade of America** Martin Grams,1998-01-01      **Science on the Air** Marcel Chotkowski LaFollette,2009-08-01 Mr Wizard s World Bill Nye the Science Guy NPR s Science Friday These popular television and radio programs broadcast science into the homes of millions of viewers and listeners But these modern series owe much of their success to the pioneering efforts of early twentieth century science shows like Adventures in Science and Our Friend the Atom Science on the Air is the fascinating history of the evolution of popular science in the first decades of the broadcasting era Marcel Chotkowski LaFollette transports readers to the early days of radio when the new medium allowed innovative and optimistic scientists the opportunity to broadcast serious and dignified presentations over the airwaves But the exponential growth of listenership in the 1920s from thousands to millions and the networks recognition that each listener represented a potential consumer turned science on the radio into an opportunity to entertain not just educate Science on the Air chronicles the efforts of science popularizers from 1923 until the mid 1950s as they negotiated topic content and tone in order to gain precious time on the air Offering a new perspective on the collision between science s idealistic and elitist view of public communication and the unbending economics of broadcasting LaFollette rewrites the history of the public reception of science in the twentieth century and the role that scientists and their institutions have played in both encouraging and inhibiting popularization By looking at the broadcasting of the past Science on the Air raises issues of concern to all those who seek to cultivate a scientifically literate society today      Historians in Public Ian Tyrrell,2005-12 From lagging book sales and shrinking job prospects to concerns over the discipline s narrowness myriad factors have been cited by historians as evidence that their profession is in decline in America Ian Tyrrell s Historians in Public shows that this perceived threat to history is recurrent exaggerated and often misunderstood In fact history has adapted to and influenced the American public more than people and often historians realize Tyrrell s elegant history of the practice of American history traces debates beginning shortly after the profession s emergence in American academia about history s role in school curricula He also examines the use of historians in and by the government and whether historians should utilize mass media such as film and radio to influence the general public As Historians in Public shows the utility of history is a distinctive theme throughout the history of the discipline as is the attempt to be responsive to public issues among pressure groups A superb examination of the practice of American history since the turn of the century Historians in Public uncovers the often tangled ways history makers make history both as artisans and as actors      **Channeling the Past** Erik Christiansen,2013-03-15 After the turmoil of the Great Depression and World War II Americans looked to the nation s more distant past for lessons to inform its uncertain future By applying recent and emerging techniques in mass communication including radio and television programs and commercial book clubs American elites working in media commerce and government used history to confer authority on their respective messages With insight and wit Erik Christiansen uncovers in Channeling the Past the ways that

powerful corporations rewrote history to strengthen the postwar corporate state while progressives communists and other leftists vied to make their own versions of the past more popular Christiansen looks closely at several notable initiatives CBS's flashback You Are There program the Smithsonian Museum of American History constructed in the late 1950s the Cavalcade of America program sponsored by the Du Pont Company the History Book Club and the Freedom Train a museum on rails that traveled the country from 1947 to 1949 exhibiting historic documents and flags including original copies of the U S Constitution and the Magna Carta It is often said that history is written by the victors but Christiansen offers a more nuanced perspective history is constantly remade to suit the objectives of those with the resources to do it He provides dramatic evidence of sophisticated calculations that influenced both public opinion and historical memory and shows that Americans relationships with the past changed as a result

**On the Air** John Dunning, 1998-05-07 Now long out of print John Dunning's Tune in Yesterday was the definitive one volume reference on old time radio broadcasting Now in On the Air Dunning has completely rethought this classic work reorganizing the material and doubling its coverage to provide a richer and more informative account of radio's golden age Here are some 1 500 radio shows presented in alphabetical order The great programs of the 30s 40s and 50s are all here Amos n Andy Fibber McGee and Molly The Lone Ranger Major Bowes Original Amateur Hour and The March of Time to name only a few For each Dunning provides a complete broadcast history with the timeslot the network and the name of the show's advertisers He also lists major cast members announcers producers directors writers and sound effects people even the show's theme song There are also umbrella entries such as News Broadcasts which features an engaging essay on radio news with capsule biographies of major broadcasters such as Lowell Thomas and Edward R Murrow Equally important Dunning provides a fascinating account of each program taking us behind the scenes to capture the feel of the performance such as the ghastly sounds of Lights Out a horror drama where heads rolled and bones crunched and providing engrossing biographies of the main people involved in the show A wonderful read for everyone who loves old time radio On the Air is a must purchase for all radio hobbyists and anyone interested in 20th century American history It is an essential reference work for libraries and radio stations

**Encyclopedia of Television** Horace Newcomb, 2014-02-03 The Encyclopedia of Television second edition is the first major reference work to provide description history analysis and information on more than 1100 subjects related to television in its international context For a full list of entries contributors and more visit the Encyclopedia of Television 2nd edition website

**Encyclopedia of Radio 3-Volume Set** Christopher H. Sterling, 2004-03 Produced in association with the Museum of Broadcast Communications in Chicago the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people networks and organizations regulation and policies audience research and radio's technology This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old with essays that provide essential information on the subject as well as comment

on the significance of the particular person organization or topic being examined      *Enchanted by Cinema* Jan-Christopher Horak,Andréas-Benjamin Seyfert,2024 William Thiele is remembered today as the father of the sound film operetta with seminal classics such as *Drei von der Tankstelle* 1930 While often considered among the most accomplished directors of Late Weimar cinema as an Austrian Jew he was vilified during the onset of the Nazi regime in 1933 and fled to the United States where he continued making films until the end of his career in 1960 *Enchanted by Cinema* closely examines the European musical film pioneer s work and his cross cultural perspective across forty years of filmography in Berlin and Hollywood to account for his popularity while discussing issues of ethnicity exile comedy music gender and race      Science Has No Sex Arleen Tuchman,2006 German born Marie Zakrzewska 1829 1902 was one of the most prominent female physicians of nineteenth century America Best known for creating a modern hospital and medical education program for women Zakrzewska battled against the gendering of science      **Science on American Television** Marcel Chotkowski,2024-05-31 As television emerged as a major cultural and economic force many imagined that the medium would enhance civic education for topics like science And indeed television soon offered a breathtaking banquet of scientific images and ideas both factual and fictional Mr Wizard performed experiments with milk bottles Viewers watched live coverage of solar eclipses and atomic bomb blasts Television cameras followed astronauts to the moon Carl Sagan through the Cosmos and Jane Goodall into the jungle Via electrons and embryos blood testing and blasting caps fictional Frankensteins and chatty Nobel laureates television opened windows onto the world of science But what promised to be a wonderful way of presenting science to huge audiences turned out to be a disappointment argues historian Marcel Chotkowski LaFollette in *Science on American Television* LaFollette narrates the history of science on television from the 1940s to the turn of the twenty first century to demonstrate how disagreements between scientists and television executives inhibited the medium s potential to engage in meaningful science education In addition to examining the content of shows she also explores audience and advertiser responses the role of news in engaging the public in science and the making of scientific celebrities Lively and provocative *Science on American Television* establishes a new approach to grappling with the popularization of science in the television age when the medium s ubiquity and influence shaped how science was presented and the scientific community had increasingly less control over what appeared on the air
