The History Of The Womens Peace Party:

The History of the Woman's Peace Party Marie Louise Degen, 1974 Reconstructing Women's Thoughts Linda Kay Schott, 1997 A study of the women who led the United States section of the Women's International League for Peace and Freedom in the interwar years this book argues that the ideas of these women the importance of nurturing nonviolence feminism and a careful balancing of people's differences with their common humanity constitute an important addition to our understanding of the intellectual heritage of the United States Most of these women were well educated and prominent in their chosen fields they included Jane Addams and Emily Greene Balch the only two United States women to win Nobel Prizes for Peace Jeannette Rankin the first woman elected to the U S Congress and Dorothy Detzer the woman who prompted the investigation of the munitions industry in the 1930 s The ideas of these women were not usually expressed in forms conventionally studied by intellectual historians On the whole their ideas must be teased out of organizational records statements of principle and policy and personal correspondence When combined with an understanding of the personal backgrounds of the WIL leaders and placed in the context of early twentieth century America these documents tell us what these women thought was important and why The ideas of the WIL leaders are also analyzed in the context of the intellectual themes of Victorianism and modernism Our understanding of these themes has been based largely on the work of privileged European and American men and the ideas of women often fit uncomfortably into these traditional categories A reconstruction of the ideas of the WIL leaders suggests that historians have overlooked an important alternative intellectual tradition in the United States To understand and appreciate women's thoughts we must dissolve the old constructs and let new multifaceted ones replace them **The Program of the Woman's Peace Party** Steven B. theoretical diversity and historical breadth of the collection provide a balanced and enlightened view of women and peace movements The papers range from an important theoretical contribution by the American scholar Berenice Carroll to one on the peace movement in Japan after Hiroshima and Nagasaki by Setsuko Thurlow a Japanese Canadian and a Hiroshima survivor The papers are divided into theoretical historical and practical approaches and the main part of the book is concerned with historical accounts of women s involvement in peace movements An important issue covered is the contradiction that arises between feminist and pacifist ideals in peace movements Literary figures such as Vera Brittain and Charlotte Perkins Gilman are also discussed This book will have multi disciplinary appeal to students and academics in women s studies peace studies sociology and history It will also be of interest to activists in the women s and peace movements

To End All Wars, New Edition Thomas Knock, 2019-03-19 A close look at Woodrow Wilson s political thought and international diplomacy In the widely acclaimed To End All Wars Thomas Knock provides an intriguing often provocative narrative of Woodrow Wilson s epic quest for a new world order This book follows Wilson s thought and diplomacy from his policy toward revolutionary Mexico through his dramatic call for Peace without Victory in World War I to the Senate s rejection of the League of Nations Throughout Knock reinterprets the origins of internationalism in American politics sweeping away the view that isolationism was the cause of Wilson s failure and revealing the role of competing visions of internationalism conservative and progressive
