The Holt Guide to English William F. Irmscher, 1981 The Holt Guide to English William F. Irmscher, 1976 **Essays on Classical Rhetoric and Modern Discourse** Robert J. Connors, Lisa S. Ede, Andrea A. Lunsford, 1984 Eighteen essays by leading scholars in English speech communication education and philosophy explore the vitality of the classical rhetorical tradition and its influence on both contemporary discourse studies and the teaching of writing Some of the essays investigate the rhetorical and historical issues Others show the bearing of classical rhetoric on contemporary problems in composition thus blending theory and practice Common to the varied approaches and viewpoints expressed in this volume is one central theme the 20th century revival of rhetoric entails a recovery of the classical tradition with its marriage of a rich and fully articulated theory with an equally efficacious practice A preface demonstrates the contribution of Edward P J Corbett to the 20th century revival and a last chapter includes a bibliography of his works **Contemporary**

Composition Studies Edith Babin, Kimberly Harrison, 1999-12-30 Composition studies is a rapidly growing and constantly changing field At present however graduate students new to the field and writing teachers who want to make new connections between theory and practice have little choice of current reference works that define key terms in composition studies and provide information about the scholars and researchers who have shaped and are shaping the discipline This book supplies this information in an easily accessible format and places both scholars and terms in the context of the field's development Included are alphabetically arranged entries for 108 individuals who have developed the field and 128 terms central to the discipline The first part of the book provides entries for leaders in composition studies Each entry identifies the areas in which the scholar has contributed most influentially to the field and provides both a chronological overview of the person's contributions and a bibliography of representative works The second part includes entries for terms that are problematic both for newcomers and for those already familiar with the discipline The entries for the terms show how the disciplinary context has shaped the ways in which they have been used The entries also indicate how established thinkers in composition studies and other disciplines have explained or defined the terms provide examples of the terms in context and list scholars often associated with them An appendix includes entries for scholars from other disciplines who have contributed to the field **Lost Texts in Rhetoric and Composition** Deborah H. Holdstein, 2023-05-03 A project of

recovery and reanimation *Lost Texts in Rhetoric and Composition* foregrounds a broad range of publications that deserve renewed attention Contributors to this volume reclaim these lost texts to envision the rhetorical tradition itself Authors discussed include not only twentieth century American compositionists but also a linguist a poet a philosopher a painter a Renaissance rhetorician and a nineteenth century pioneer of comics the collection also features some less studied works by authors who remain well known These texts will give rise to new conversations about current ideas in rhetoric and composition This volume contains discussion of the following authors and titles Judah Messer Leon *The Book of the*

Wess,1996-03-29 Kenneth Burke arguably the most important American literary theorist of the twentieth century helped define the theoretical terrain for contemporary literary and cultural studies His perspectives were literary and linguistic but his influences ranged across history philosophy and the social sciences In this important study first published in 1996 Robert Wess traces the trajectory of Burke s long career and situates his work in relation to postmodernity His study is both an examination of contemporary theories of rhetoric ideology and the subject and an explanation of why Burke failed to complete his Motives trilogy Burke s own critique of the isolated unique individual led him to question the possibility of unique individuation a strategy which anticipated important elements of postmodern concepts of subjectivity Robert Wess study is a judicious exposition of Burke s massive oeuvre and a crucial intervention in debates on rhetoric and human agency

Techne, from Neoclassicism to Postmodernism Kelly Pender,2011-05-21 *Techne from Neoclassicism to Postmodernism* offers a deconstructive reading of the debates that have surrounded the term techne in rhetoric and composition explaining how we can affirm its value as a theory and pedagogy of writing without denying the legitimacy of the postmodern critiques that have been leveled against it *Perceptions of Discourse: The Revolution in Assumptions* Dorothy Naor,2014-12-12 This book was ready to go except for the final editing nearly 14 years ago when suddenly other events entered my life that took all my energy and time Apparently no one else in the interim has touched on the subject Because I was loathe to let 15 or so years of research go to waste and because I think that the history might be interesting and perhaps also useful to others and also because I suddenly realized that I am now in my 80s and would not be around forever I have finally taken time off to publish As for my sources which extend from about the 16th century till the late 1980s I have decided against updating them Those included in these pages serve the purpose of this study which is about a revolution in assumptions about discourse that began in the USA in the 1920s and became the institution in the 1980s in schools universities and in our perceptions of discourse in general The tale in these pages also covers the more important consequences of the revolution **Catalog of Copyright Entries.
