Science of Love with Key to Immortality Ida Mingle, 1926 *Science of Love with Key to Immortality* Ida Mingle, 1950 **The Holy Family** Amory Howe Bradford, 1899 **Reality**, 1925 **The South's Tolerable Alien** Andrew S. Moore, 2007-03 In *The South's Tolerable Alien*, Andrew S. Moore probes the role of Catholics in the post-World War II South and argues persuasively that until the 1960s, religion rivaled race as a boundary separating residents of the Bible Belt. Delving deep into underutilized diocesan archives, he explores the ways in which southern Catholics worked to be both good Catholics and good southerners in a region largely defined by Protestant denominations and explains how the burgeoning civil rights movement ultimately breached these religious barriers. With religious intolerance integral to southern Protestant identity, anti-Catholicism persisted longer in the South than in any other part of the country. Yet despite the prejudices against them, southern Catholics refused to shrink from public view, creating a separate subculture to sustain their religious identity as they marked out public sacred space from which they could engage their critics. Moore describes in detail the Catholics' civic displays and public rituals, including the diocese of Mobile-Birmingham's annual Christ the King celebrations, which featured downtown parades of over 25,000 people. More than mere assertions of their presence, these pageants provided Catholics with opportunities to craft a secular identity within the American mainstream. As Moore maintains, the rise of the civil rights movement slowly diminished religious tension among white southerners, as violent confrontations in Selma and Birmingham forced Catholics, as well as others, to take a stand. Once the civil rights movement was in full swing, either support for or opposition to racial desegregation became paramount and contributed to social and political realignments along racial lines instead of religious ones. Comparing the responses to the struggle to end Jim Crow among dioceses, Moore finds that among Catholics there was no simple liberal-conservative dichotomy. Instead, he argues that in the South, the civil rights movement was more important than the Second Vatican Council in reshaping the social and political stances of the Catholic Church. By describing the relationship between Catholics and Protestants in the South from a Catholic perspective, Moore demonstrates that despite the persistence of anti-Catholicism throughout this period, white Protestants were gradually coming to terms with the modern South's religious pluralism. With *The South's Tolerable Alien*, Moore offers the first serious analysis of southern Catholicism outside of Louisiana and makes an enormous contribution to the study of southern religion. *The Bahá'í Faith and African American Studies* Layli Maparyan, Loni Bramson, 2023-01-09 *The Bahá'í Faith and African American Studies: Perspectives on Racial Justice* provides readers who may already have basic or even advanced familiarity with the struggle for racial justice in

Desegregating Dixie Mark Newman, 2018-10-04 Winner of the 2020 American Studies Network Book Prize from the European Association for American Studies Mark Newman draws on a vast range of archives and many interviews to uncover for the first time the complex response of African American and white Catholics across the South to desegregation In the late nineteenth and first half of the twentieth century the southern Catholic Church contributed to segregation by confining African Americans to the back of white churches and to black only schools and churches However in the twentieth century papal adoption and dissemination of the doctrine of the Mystical Body of Christ pressure from some black and white Catholics and secular change brought by the civil rights movement increasingly led the Church to address racial discrimination both inside and outside its walls Far from monolithic white Catholics in the South split between a moderate segregationist majority and minorities of hard line segregationists and progressive racial egalitarians While some bishops felt no discomfort with segregation prelates appointed from the late 1940s onward tended to be more supportive of religious and secular change Some bishops in the peripheral South began desegregation before or in anticipation of secular change while elsewhere especially in the Deep South they often tied changes in the Catholic churches to secular desegregation African American Catholics were diverse and more active in the civil rights movement than has often been assumed While some black Catholics challenged racism in the Church many were conflicted about the manner of Catholic desegregation generally imposed by closing valued black institutions Tracing its impact through the early 1990s Newman reveals how desegregation shook congregations but seldom brought about genuine integration
