A Farm Garden (Classic Reprint) R. B. Cruickshank,2018-02-10 Excerpt from A Farm Garden Every farm should have a garden The garden may vary in size and in variety quantity and quality of resulting produce depending upon the tastes and abilities of the individual owners but any farm is a better farm for having a good garden The garden is sometimes called a home garden sometimes a kitchen garden The ideal home garden whether it be on a farm or on a city lot is one that furnishes a desirable variety of products of high quality continuously throughout a season The need of a kitchen garden on a farm is an urgent one There is no handy grocery store to which the housewife can phone and which will deliver to her berries and vegetables when she wishes them The men are generally too busy to drop their farm work and drive to the grocery in town for the needed supplies If the housewife is expected to prepare many vegetables for the table she must have close to the house a garden which will afford a selection of seasonable produce The cost of feeding the family will be materially reduced and there will be a more pleasing variety of food offered when a well planned well cared for garden is added to the farm A garden the plan of which has been thoroughly worked out will under proper management give a succession of fresh and canned fruits and vegetables the year round Probably as much or more satisfaction and financial gain can be obtained from an area devoted to the growing of such products as from that used by any other farm crop About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com
