The Home Of Meaning The Hermeneutics Of The Subject Of Paul Ricoeur:

The Home of Meaning John W. Van Den Hengel, 1982 Hermeneutics, History and Memory Philip Gardner, 2010-01-21

This book presents a novel contribution to topical academic debate seeing the sceptical challenge as an opportunity for reflection on history's key processes and practices Ricoeur's Critical Theory David M. Kaplan, 2012-02-01 In Ricoeur's Critical Theory David M Kaplan revisits the Habermas Gadamer debates to show how Paul Ricoeur's narrative hermeneutics and moral political philosophy provide a superior interpretive normative and critical framework Arguing that Ricoeur's unique version of critical theory surpasses the hermeneutic philosophy of Gadamer Kaplan adds a theory of argumentation necessary to criticize false consciousness and distorted communication He also argues that Ricoeur develops Habermas's critical theory adding an imaginative creative dimension and a concern for community values and ideas of the Good Life He then shows how Ricoeur's political philosophy steers a delicate path between liberalism communitarianism and socialism Ricoeur's version of critical theory not only identifies and criticizes social pathologies posits Kaplan but also projects utopian alternatives for personal and social transformation that would counter and heal the effects of unjust societies The author concludes by applying Ricoeur's critical theory to three related problems the politics of identity and recognition technology and globalization and democracy to show how his works add depth complexity and practical solutions to these problems

Dialectic of Sedimentation and Innovation Mabiala Justin-Robert Kenzo, 2009 One of the most important developments in the episteme of our time is the recognition that all being and all knowing are socially conditioned This recognition raises the question of subjective creativity Is creativity or innovation possible What is the locus of creativity Is it the subject or the structure of the structures of being of which the subject is part Any notion of creativity that takes seriously the condition of being is therefore bound to deal with the perennial issue of freedom and determinism Dialectic of Sedimentation and Innovation examines the contribution of Paul Ricoeur to this question for the purpose of theological consumption Ricoeur's philosophical reconstruction of the subject as self creates a space midway between the modern self positing subject and the postmodern deconstructed subject where reason rules but does not tyrannize It is from this space that he proposes a view of humanity that argues that to be human is to be homo voluntas homo lingua and homo capax Dialectic of Sedimentation and Innovation seeks to theologically appropriate these notions for Africa's quest for a new creative identity

The Philosophy of Paul Ricoeur Lewis Edwin Hahn, 1995 Paul Ricoeur widely regarded as the foremost living phenomenologist has helped to make the term hermeneutics a household word His writings cover a wide range of topics from the history of philosophy literary criticism and aesthetics to metaphysics ethics religion semiotics linguistic structuralism and psychoanalysis Ricoeur's most important works including *Freedom and Nature* *Freud and Philosophy* *The Conflict of Interpretations* *Time and Narrative* *The Symbolism of Evil* and *Oneself as Another* have attracted enthusiastic readers from many disciplines and from every major cultural milieu across the surface of the globe *The Unity*

of the Church Eddy A. J. G. van der Borght, 2009 In contrast to its original name Ecclesia Reformata ecclesiology did not develop into a major theme within the Reformed tradition Notwithstanding the undeniable schismatic tendency and the ecclesial embarrassment about disunity the unity of the church did not rise to prominence as a theological topic This volume challenges this traditional low key attitude towards the unity of the church It investigates theological aspects that contributed to a weak *sensus unitatis* and explores approaches that remedy the disease of division It discusses the role played by scripture the sacraments confessions and discipline it searches for the best theological practices within other Christian traditions it links the unity of the church to the unity of God and reformulates the nature of the church

Routledge History of Philosophy Volume VIII Richard Kearney, 2003-12-23 Continental philosophy as it has emerged in the twentieth century is less a seamless fabric than a patchquilt of diverse strands Phenomenology hermeneutics existentialism structuralism critical theory deconstruction these are some of the salient movements which have developed in continental Europe between 1900 and the 1990 s though their influence is by no means confined to geographic location Continental thought has proved highly exportable circulating far beyond the frontiers of Europe to provoke strong responses in the intellectual world at large The fifteen articles in this volume outline and assess some of the issues and experiments of continental philosophy The first five span the twin movements of phenomenology and existentialism running from Husserl and Heidegger to Sartre Merleau Ponty and Levinas Subsequent essays deal with specific currents of continental thought in such areas as science Marxism linguistics politics aesthetics feminism and hermeneutics A final chapter on postmodernism highlights the manner in which so many concerns of continental thought culminate in a radical anti foundationalism This volume provides a broad scholarly introduction to this period for students of philosophy and related disciplines as well as some original interpretations of these authors It includes a glossary of technical terms and a chronological tube of philosophical scientific and other cultural events

Continental Philosophy in the 20th Century Richard Kearney, 2003 Continental philosophy is one of the 20th century s most important challenging philosophical movements
