serious human rights violations be granted under international law the rights of access to and participation in criminal proceedings before international hybrid and domestic tribunals Juan Carlos Ochoa applies a thorough analysis of international and comparative domestic law and practice to this question taking into account a host of international human rights instruments and case law the theory law and practice of international and hybrid criminal tribunals the law and practice in several domestic jurisdictions and many theoretical and empirical studies After first determining the current state of and emerging trends in international law in this area he argues that the lack of recognition of these rights under customary international law is inadequate because access to and participation in criminal proceedings for victims of these infringements are based on several internationally recognised human rights and principles contribute to the expressivist objectives of these procedures and are consistent with the principles that inform the enforcement of criminal law in democratic States On this basis Ochoa convincingly suggests concrete reforms

Adjudicating International Human Rights James A. Green, Christopher P.M. Waters, 2015-01-27 *Adjudicating International Human Rights* honours Professor Sandy Ghandhi on his retirement from law teaching. It does so through a series of targeted essays which probe the framework and adequacy of international human rights adjudication. Eminent international law scholars such as Sir Nigel Rodley, Professor Javaid Rehman and Professor Malcolm Evans along with emerging writers in the field take Professor Ghandhi's body of work focussed on human rights protection through legal institutions as a starting point for a variety of analytical essays. *Adjudicating International Human Rights* includes chapters devoted to human rights protection in a number of different institutional contexts ranging from the ICJ and the Human Rights Committee to truth commissions and NAFTA arbitration tribunals.

**The Rule of Law, Freedom of Expression and Islamic Law** Hossein Esmaeili, Irmgard Marboe, Javaid Rehman, 2017-12-14 The importance of the rule of law is universally recognised and of fundamental value for most societies. Establishing and promoting the rule of law in the Muslim world particularly in the Middle East, North Africa and Central Asia has become a pressing but complicated issue. These states have Muslim majority populations and the religion of Islam has an important role in the traditional structures of their societies. While the Muslim world is taking gradual steps towards the establishment of rule of law systems, most Muslim majority countries may not yet have effective legal systems with independent judiciaries which would allow the state and institutions to be controlled by an effective rule of law system. One important aspect of the rule of law is freedom of expression. Given the sensitivity of Muslim societies in relation to their sacred beliefs, freedom of expression as an international human rights issue has raised some controversial cases. This book, drawing on both International and Islamic Law, explores the rule of law and freedom of expression and its practical application in the Muslim world.
