The Hong Kong Guangdong Link Partnership In Flux:

The Hong Kong-Guangdong Link Reginald Yin-Wang Kwok, Alvin Y. So, 2020-11-25 This text focuses on the relationship of Hong Kong with the adjacent Chinese province Guangdong the territories most directly involved in the 1997 transfer of Hong Kong to Chinese rule The socio economic political and cultural impact of this crucial link and the implications for the future of both Hong Kong and China are studied A multi disciplinary approach is taken to examine the complexity of economic political and cultural transformation of the Hong Kong Guangdong link and this book presents a historical perspective to trace the long term structural transformation The dynamics of the integration process between the two territories is also explored *The Hong Kong Reader* Ming K. Chan, Gerard A. Postiglione, 2016-09-16 This paperback reader provides the student and general reader with easy access to the major issues of the Hong Kong transition crisis Contributors include both editors as well as Frank Ching Berry F Hsu Reginald Yin wang Kwok Peter Kwong Julian Y M Leung Ronald Skeldon Alvin Y So Yun wing Sung and James T H Tang the majority of whom live and work in Hong Kong and experience the transition firsthand personally and professionally *Hong Kong in Transition* R. Ash, P. Ferdinand, B. Hook, R. Porter, 2000-06-05 This book presents an overview of critical developments surrounding the handover of Hong Kong to Chinese rule Well known commentators from a variety of disciplines examine the issues and events in the years leading up to the transfer of sovereignty and in the eighteen months that followed Major dilemmas are addressed in the economic political legal social and diplomatic life of the territory which remain in many cases unresolved and pressing as Hong Kong enters the new century **Contested Citizenship in East Asia** Kyung-Sup Chang, Bryan Turner, 2012-03-22 Theories of citizenship from the West pre eminently those by T H Marshall provide only a limited insight into East Asian political history The Marshallian trajectory juridical political and social rights was not repeated in Asia and the late nineteenth century debate about liberalism and citizenship among intellectuals in Japan and China was eventually stifled by war colonialism and authoritarian governments both nationalist and communist Subsequent attempts to import western style democratic values and citizenship were to a large extent failures Social rights have rarely been systematically incorporated into the political ideology and administrative framework of ruling governments In reality the predominant concern of both the state elite and the ordinary citizens was economic development and a modicum of material well being rather than civil liberties The developmental state and its politics take precedence in the everyday political process of most East Asian societies These essays provide a systematic and comparative account of the tensions between rapid economic growth and citizenship and the ways in which those tensions are played out in civil society **The Challenge of Hong Kong's Reintegration with China** Ming K. Chan, 1997-07-01 The seven essays in this volume address some of the critical issues underlining the process of Hong Kong s reintegration with China In reviewing the drastic changes in Hong Kong since the mid 1980s the authors provide multi disciplinary perspectives to articulate the major institutions and forces that shape the interaction between Beijing and

Hong Kong and help to define the challenges ahead **Edge of Empires** John M. CARROLL, John M Carroll, 2009-06-30 In *Edge of Empires* Carroll situates Hong Kong squarely within the framework of both Chinese and British colonial history while exploring larger questions about the meaning and implications of colonialism in modern history *Hong Kong's Reunion with China: The Global Dimensions* Gerard A. Postiglione, James Tuck-Hong Tang, 2016-07-01 The issues surrounding Hong Kong's global position and international links grow increasingly complex by the day as the process of Hong Kong's transformation from a British colony to a Chinese Special Administration Region unfolds This volume addresses a number of questions relating to this process How international is Hong Kong What are its global and international dimensions How important are these dimensions to its continued success How will these dimensions change especially beyond the sphere of economics Is Hong Kong's internationalization defined in terms of its willingness to embrace international values and its capacity to maintain its international presence at risk These questions are presented as they pertain to the changing situation relations between mainland China Taiwan and Hong Kong the positions of Australia Canada and the United States on Hong Kong internalization of international legal values Americanization vs Asianization linkages to the world through Guangdong strategies to emigrate overseas cultural internationalization media internationalization and universities within the global economy Media in Hong Kong Carol P. Lai, 2007-03-12 This book examines the Hong Kong media over a forty year period focusing in particular on how its newspapers and TV stations have struggled for press freedom under the colonial British administration as well as Chinese rule Making full use of newly declassified material extensive interviews and specific case studies it provides an illuminating analysis of the dynamics of political power and its relationship with media censorship Overall this book is an impressive discussion of the evolving face of the Hong Kong media and is an important contribution to theoretical debates on the relationship between political power economics identity and journalism The Politics Of Democratization Edward Friedman, 2019-06-26 This collection explores democratic transitions in East Asia arguing against the standard wisdom that European or Christian value systems and socioeconomic forces are essential for democracy to succeed Instead the contributors convincingly illustrate that political institutions which can be built anywhere by skilled coalitions have the most profound and lasting influence on a stable democratic system Indeed the East Asian experience reveals truths about Western democratization that are obscured by popular Western mythologies This partnership of U S and Asian scholars has given us the first systematic effort to bring East Asia into the democratization debate in a way that compels one to rethink the politics of democratization everywhere The book therefore is a crucial contribution for all those interested in the broader issues of transition **Guangdong** Yue-man Yeung, David K. Y. Chu, 1998 Guangdong capitalizing on its traditional role as China's gateway to the outside world and its proximity to Hong Kong and Macau has witnessed momentous and fundamental changes since 1978 The province has raced ahead in rapid economic development and physical transformation reaping the largest dividends in China's open policy and economic reforms So rapidly has Guangdong

developed during the last decade that it has set for itself the target of becoming another little dragon of Asia This volume addresses the processes outcomes and meanings of the rapidity of physical and socioeconomic transformation in Guangdong across a wide spectrum of subjects Undertaken almost exclusively by academics in Hong Kong this book length study of Guangdong is a major contribution in our quest for a better understanding of China s modernization and development programmes through its multifaceted experimentation in the southerly province
