## **The Horus Gods:**

Horus Charles River Charles River Editors, Markus Carabas, 2018-05-14 Includes pictures Includes ancient accounts Includes online resources and a bibliography for further reading Africa may have given rise to the first human beings and Egypt probably gave rise to the first great civilizations which continue to fascinate modern societies across the globe nearly 5 000 years later From the Library and Lighthouse of Alexandria to the Great Pyramid at Giza the Ancient Egyptians produced several wonders of the world revolutionized architecture and construction created some of the world's first systems of mathematics and medicine and established language and art that spread across the known world With world famous leaders like King Tut and Cleopatra it's no wonder that today's world has so many Egyptologists To the ancient Egyptians as was the case with any society made up of inquiring humans the world was a confusing and often terrifying place of destruction death and unexplained phenomena In order to make sense of such an existence they resorted to teleological stories Giving a phenomenon a story made it less horrifying and it also helped them make sense of the world around them Unsurprisingly then the ancient Egyptian gods permeated every aspect of existence There are few characters in Egyptian myth whose image and name are more widely known than Horus His name most probably means the Distant One as the celestial falcon his wings were believed to span the length of the distant sky and his eyes were the sun and the moon This name betrays the connection Horus shared with Re the all powerful sun god and also hints at his earlier incarnation as one of the earliest celestial gods in Egyptian religious belief One of the earliest images from ancient Egypt is that of a falcon residing in the famous sun Barque of Re which the ancient Egyptians believed traversed the sky during the day and crossed the dangerous land of the dead during the night Horus place in the sun barque probably represents Horus as a star or planet crossing the Winding Waterway of the sky since the ancient Egyptians were famous for their complex astronomical system that incorporated many mythical elements but his position there is much more than being just another of the sun god's divine entourage Horus mythological lineage places him as the direct descendant of the Ennead the nine gods and goddesses who were formed from the earlier abstract concepts in the primordial waters of Nun This places him at an interesting crossroads in terms of his relationships with the greater pantheon Not being one of the Ennead weakens Horus claim to the divine right of kingship in contrast to Seth his uncle who could claim primacy as one of the Ennead himself The result of this contention made for a fascinating power struggle and a myth that would have real world ramifications throughout the vast expanse of Egyptian history Horus would eventually ascend the throne of his father Osiris and for this reason he held a deep connection with the throne of united Egypt The earliest kings were shown as hawks long considered part of the Falconidae Family preying on their enemies the reason for which lies in the mythological foundation of Horus life and also in the real world understanding of the history of the royal line of kings Integral to Horus myths is the notion of royal inheritance Born of the murdered god Osiris and the magical goddess Isis Horus the younger at least life was defined by his establishment of the

royal line of Egyptian kings To the modern Western reader this notion of gods being mortal and inheriting the power of their fathers may seem a little strange but to the ancient Egyptians stories about feuding mortal deities were par for the rather strange course and an understanding of the nuances of Egyptian religious belief can go some way towards dispelling that confusion

**The Saviour God** Samuel George Frederick Brandon, 1963      **The Gods of the Egyptians** Sir Ernest Alfred Wallis Budge, 1904      The Mysterious Gods of Egypt Norah Romney, 2021-02-12

At the beginning of time there was only Nun the primeval waters of chaos then in a great flood the Sun got interned rose from the water and willed himself into creation Atum then created Ayr a son he named Shu and moisture a daughter he named Tefnut They were the first divine pair and soon had children of their own The earth named Geb and the sky called Nut the second divine pair then had four children Osiris Isis Seth and Nephthys They were completing the group of nine primeval gods known as the Ennead Osiris then married his sister Isis and the two ruled over Egypt together in an unprecedented time of peace and prosperity however their jealous brother Seth desired the throne for himself and murdered Osiris dismembering his body scattering the parts across the land Isis then searched for the pieces of her husband's body and with the help of her sister Nephthys was eventually able to collect them with the help of the scholar god Thoth and the funeral god Anubis Isis was able to reconstruct Osiris creating the first mummy Osiris impregnated Isis after his resurrection however he was too weak to remain in the world instead of traveling to the Duat the Land of the Dead where he became Lord Seth then took the throne for himself forcing Isis to flee and give birth to her son Horus in hiding She raised Horus until he was an adult and able to challenge his uncle Seth for the throne After a violent contest the case was settled in a divine legal trial hosted by the Ennead Acting as judge was Geb the God of the earth who ruled in favor of Horus who then took his rightful place as king of Egypt Future Pharaohs claimed descent from Horus with it being this divine ancestry that gave them the right to rule Amun the hidden one was the foremost God of Egypt thought to be the invisible force behind all things even creation itself unlike other gods linked to only one aspect of the world the sky the earth or the Sun Amun was a universal God who had links to all parts of the cosmos his prominence also increased as he absorbed other gods throughout Egyptian history taking on their roles and powers The most

important of these was his merger with the Sun God Ra combining to become Amon Ra In this role he became linked with the Sun an essential part of the Egyptian world In this combined state Amon Ra rose to prominence becoming Egypt s chief deity and the king of the Gods Amon became so widely worshipped that he came close to becoming the sole deity of Egypt The other gods merely being aspects of his great power Osiris judge of the Dead and King of the underworld was one of the most respected ancient Egyptian gods His death and resurrection story inspired the Egyptians to follow in his footsteps and seek immortality for themselves The elaborate tombs and burial rituals found in ancient Egypt were all built in search of this goal with the funerary practices being done to aid the spirit in its journey through the underworld Pharaohs and wealthy Nobles could afford more elaborate burials with trinkets and spells to help them in their journey but the average Egyptian could survive the underworld as well
